# Unique Elements Complement Learning, Playing Environment

citing environment in which to learn and play. This setting was accomplished through hard work and dedication.

Built in 1977, the Boyle Auditorium served as a gathering place for various events. After completion, the auditorium became a dominant landmark, unique for its rotating pods. Also McClintock remained the only school in Tempe

with a pool.

To ripen talents, many students spent time attending workshops and camps. Historian and Guidon editors, and photographers attended seminars at N.A.U. Pom and cheer lines traveled to California for a camp, as Charger Band held an intensive camp working with coordinators from A.S.U. Countless athletes journeyed to sports camps. Endless hours of personal dedication resulted in a mastery of skills for many students.

In recent years, the average SAT scores have peaked above the national average. Whether it was the Arizona Math Contest or the ACT tests, rarely did a test go by without a McClintock name gracing some

of the top scores.

Excellence became a reality and its presence compliments the formula of being First Class.

#### Concern Sparks Projects Emanating Self-Pride, Good Will

Comprised of 1809 students, McClintock played an integral role within Tempe. Concern for the community and colleagues sparked projects that resulted in feelings of good will and self-pride.

After a destructive fire burned down the Secario Estrada home, various clubs united to hold a benefit dance for the family. Other benefit dances included a United Way Dance sponsored by student council and the annual 12 hour Muscular Dystrophy Dance Marathon. Interact club aided Arizona Blood Services by recruiting donors and Key Club spent time with orphans from Sunshine Acres.

Acts of concern and the idea of helping others was not restricted to community services. Coaches, teachers and administration spent many unpaid hours helping students improve their skills. With students and faculty pulling together, concern prompted action that was First Class.

## Traditions Play Major Roles in the Everyday Lives of Stud

he recurrence of numerous activities has always played a major role in the history of Mc-Clintock. From the beginning, as freshmen are "welcomed" to high school by a decorated campus, to grad night at Disneyland, specific traditions are meshed into the everyday lives of McClintock students.

Homecoming holds an array of tradition; during the week, lunchtime activities build enthusiasm which peaks on Friday. At the pep rally, football players' parents lead cheers for their sons. Other guests included the previous years' royalty, booster club, and alumni doing skits reminiscent of their years as students.

The foundation of tradition is found in the roots of the school. From its birth in 1964, as a cluster of buildings on a dirt field, to its present advanced condition, customs have been preserved with pride throughout the years, adding an unmistakable Touch of Class.

# Students Diversified Qualities Dominate Displays of Enthusiasm

igh school embodied numerous opportunities to emonstrate spirit. The usual at actions displayed both human and holiday spirit. The McClinack environment complemented upon qualities.

School spirit which ranged from ompeting in a sport to the pretomecoming | bonfire on the aseball field remained a tradition crowds of enthusiasts chanted ad cheered before the game. Clubbers donned shirts, sold bayels and offered linemper stickers. Participations in Western Day and lunchtime activities such as "Do you like your neighbor?" was at an all-time high.

Pep assemblies surmounted spirit for the sports of each season. Events at these rallies consisted of class competitions of cheering and chanting. Skits such as the continuing episode of Chargerella provided amusement. At othese gatherings, the numberlying pur-

poet was to unite the student

Pep railies are a great way to promote sparit and mount the excitement for the upcoming game, remarked Shauna Kiefer, varsity cheerleader.

For many students, high school was a time, unlike any other, for promoting repirit a through racif, group, and school pride. Their new discoveries led to a sense of overall class.

#### McClintock Opens Doors to a Fresh Variety of Relationship

If hen a student attended his first day of school there was usually a seemingly uneasy feeling inside But there a ways was that familiar someone to lean on.

As the days and weeks passed by, the once new surroundings became more comfortable, and the doors of McClintock opened for new and different friendships

At McClintock, there were a variety of friendships ranging from boyfriend-girlfriend to student-teacher relationships Every two people who became inquainted seemed to gain a certain bond. These ties may have remained simple or grown into a

deep and lasting friendship

"I look for a variety of things in the delivery of things in the delivery of things in the state of the state

### Recreational Plans Prove Major Decision for Most Students

novie? One of the hardest decisions of all in deciding on daily plant. The good old M.H.S. football games with a unce following were available: School sclubs moually provided some type of activity for Friday out what about the other nights?

Even with homework that was idded on a daily schedule, enter tainment played a big part in the day Students accored to find a way to keep themselves enter tained, but commented on the money they have spent on gas just running around. "Sometimes feel like I've been in my car all. day: I'm always going tomewhere just to relax." remarked Lauren Kelly, senior.

Matinees accured to be many popular during the summer. Some week nights assually Tuesdays and Wednesdays theaters of fered dollar mights which proved to be a great relief n many students' pocket books:

Football games, however, were none of the most popular inc livities for catestainment. Along with M.H.S. football; the ASU stadium holding seventy thou and football fam proved to be one of the popular events to go to on a Saturday night. "I like to go to the university games because a lot of my friends work there and I can meet them after the game. tated Greta Kruggel, senior:

Shopping was another method of getting out of the house Something was consistently in cffect so one could make the excuse jo buy a new outfit. Fiesta Mall was close by and housed various shops with a variety from which to choose. There were numerous ways by which to keep entertain ede and it was obvious that night time was not the enly time for entertainment

#### School Nights Restrict Students' Recreation to Weekends

Mightlife—dances, parties, movies ... Much to do in such a short time, only two nights free from studying and/or other commitments.

A typical Friday at school included clockwatchers, thumbtwiddlers, and noisemakers, as anticipation preceded the ringing of the bell. As soon as the first chime sounded, students were at their lockers, out of the halls, in their cars, and on their way home to find out what the plans were for the

evening.

Surveys of a hundred students indicated the entertainment that could possibly provide an agenda for the upcoming night. Even with all the theatres around Tempe. movies came in third place in preference to going over to a friends house or attending a high school party. Further down the list were little individual preferences such as dinner, bowling, and even working as a source of entertainment. Favorite restaurants again included Monti's, Bobby McGee's, Black Angus, and Willy and Guillermo's. Songs chosen exemplified each different personality ranging from disco to rock and country. Many of the top songs represented the same groups. Journey had two or three songs that were very popular with Pat Benatar's music following close behind. One of the biggest concerts to come to the valley was the Rolling Stones. 80,000 fans bought tickets for the show held at A.S.U. football stadium. Most of these people arrived in line about Saturday mid-morning to buy the tickets that went on sale Sunday at 7 a.m. Other groups that appeared later included Willie Nelson, Jefferson Starship, and Stevie Nicks.

It was clearly shown that students were always ready for the weekend nights.

Pat kyler searches for an album as touring groups brought tremendous sales. Top selling albums included latto You by the stones, Procous Time by Pat Benatar, and Escape by Journey.

Alight Life

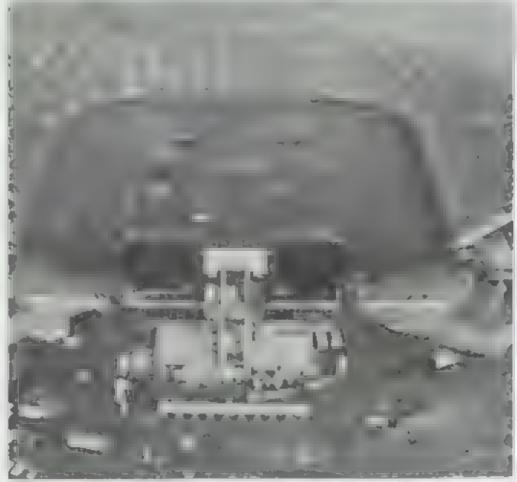

Ultimate goals of Erica Cota and Billy Martinez, members of Ballet Folklorico Gaudalupano are fulfilled as they meet Pope Paul.

Dick Neubeisel and Harry Mitchell, members of Sister Cities International, meet with David Eisenhower at the annual convention.

resident Ronald Reagan and Supreme Court nominee andra Day O'Connor stroll through the White House ose garden prior to a national press conference.

Mick Jagger and the Rolling Stones attracted a record crowd at Sun Devil Stadium, their last appearance on their world-wide tour.

#### Rolling Stones, O'Connor, Lottery Cop Limelight of Eventful Year

great number of significant news events covering both empe and Arizona took place uring the class of 1982's senior ear. The HISTORIAN ewsgathering staff and the ssociated press list the following ighlights:

1. Arizona's Sandra Day 'Connor was the first woman er named to the U.S. Supreme

ourt.

2. Voters approved a state lotery which became an immediate

3. The legislature dumped the roposed Orme Dam and approvant indigent health care plan.

4. A congressional and gislative redistricting dispute w an override of the Governor's

5. Patrick Hanigan was found lilty by one jury and his brother homas was acquitted of the same iminal conduct by another jury.

6. Former U.S. Attorney eneral Richard Kleindienst was quitted in a perjury trial.

7. A heist netted \$3.3 million from a Tucson bank.

8. The opening of the new McClintock-Southern Shopping Center excited MHS students as they bid farewell to the "big hole in the ground."

 Governor Bruce Babbitt suggested raising legal drinking age

from 19 to 21.

10. A record crowd packed Sun Devil Stadium to enjoy the Roll-

ing Stones' performance.

11. J. Russell Nelson succeeded John Schwada as ASU President and announced plans to make the nation's 6th largest university a major research institution.

12. Dick Neuheisel, founder of the Tempe Sister City program, became president of Sister Cities

International.

13. The new Scottsdale Bridge over the Salt River was finally completed.

14. Mayor Harry Mitchell and the Tempe City Council faced the hot issue of high-rise building complexes near MHS. 15. A jury exonerated former grid coach Frank Kush finding him innocent of hitting a player.

Guadalupano performed locally to raise money for a trip to Rome and Pope John Paul II warmly received them.

17. Penn State defeated Southern Cal 26-10 in the 11th annual Fiesta Bowl held on New

Year's Day.

Among the top stories of the year was the elevation of Justice O'Connor from the state court of Appeals to the highest court in the land. "I was very proud that the first woman on the Supreme Court was from Arizona." stated Pam Smith, senior.

The most discussed news topic at MHS centered around the proposed legislation aimed at increasing the legal drinking age. "I'm opposed to raising the legal drinking age. If I can defend my country in war at 19, I should be allowed to drink a beer at that age," said senior David Davenport.

#### Controversy and Anger Play Key Role in National News

ne of the biggest and most controversial items in the news was the professional baseball strike. It brought disappointment and anger to a great many ticket holders. The dispute was over the way team owners traded their players, who felt they were getting the short end of the deal. "Those guys get enough money now and all they're trying to do is be greedy and get more money," remarked David Hill, senior. "They're hurting their fans, too!" After about two months, they reached an agreement and the sound became "Play Ball!"

Another top story in sports was the presentation of the Heisman Trophy Award. Cougar quarterback Marcus Allen received the highest annual award given in college football. He broke or set over

sixty records

In politics it was a new and shocking year. President Ronald Reagan's roots really began to take heed in the White House and Washington D C. Budget cuts were one of the most noticeable changes. Educational cuts hurt many schools and riled students, parents, and teachers at the thought of losing sports programs, elective classes, and jobs

One addition made to our government was historical. Phoenix's own Supreme Court Justice, Sandra Day O'Connor became the first woman to sit on the bench of the United States Supreme Court. In various interviews, Judge O'Connor was repeatedly questioned about her ideas on abortion. She responded

with an impressive answer.

The world witnessed the drawbacks of power as tragedy struck Egyptian President Anwar Sadat who was shot and killed by Libyan hit men in an Israelian city A majority of the suspected group escaped. "Things must be pretty bad across the world for another

country to kill another's leader." stated Cindy Eichorn, senior. Later, the United States learned that the assassins were on the trail of President Reagan, Anxiety struck the country as everyone waited for the next move. American citizens in Libya were told to leave for safety reasons, but for months nothing happened and many resented suggestions that the whole thing was a political hoax. Months later, the media brought back the story saying the FBI never confirmed it and it could have only been a plot to make government officials "look foolish."

Tragic deaths existed not only in politics but in the movie industry as well. Popular stars William Holden and Natalie Wood died within only months of each other. Holden died from a fall in which his head struck a table. Many believed differently, though, as fan magazines tried to stretch the truth. The shocking death of actress Natalie Wood surprised many people. Wood was at-

tending a party when she decided return to the family's yacht S apparently slipped and was lat found floating several yards fro the boat.

One article that hindered a lot businessmen and holiday travele was the air traffic controlle strike. It lasted only a short who before President Reagan told a traffic controllers to return to the jobs or be fired. After the deadling some employees were replaced Two men who held high positions the field were tried and convicted striking the federal government.

In Poland, martial law was pinto effect. This worried mile relatives and friends. Many lett received by them were found of sored. When Russia became invoced, President Reagan set certifications, bringing a lot of return from Russian officals

Although each year brings so losses, tragedies, and some new a exciting things. America seems prevail in her strife to stay united

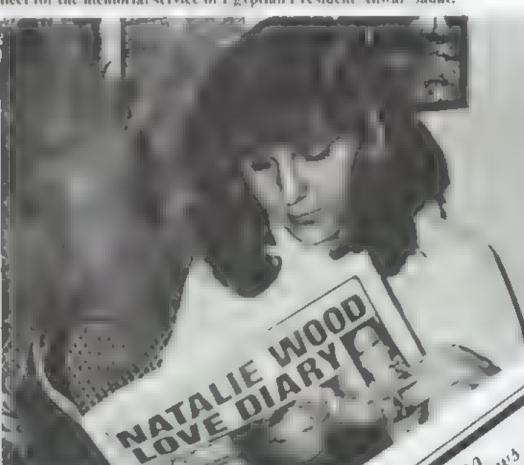

Sandra Day O'Connor and Chief Justice Warren Burger pose in front of a statue at t U.S. Supreme Court building in Washington D.C.

Historically, four United States presidents meet for the memorial service of Egyptian President Anwar Sadat,

orting the latest fashion of, knee length pants, Jana ylor and Pam Smith enjoy popular video games.

Eric Garza displays one of the many ways bandanas are worn on campus. Students also wore bandanas around their collar or waist.

#### Najority of Students Respect Current Styles, Color Trends

Jashion changes in '82 were reflected through preppy shirts and top-siders. McClink students obeyed the current le and color trends.

An old, but new, style of banna was seen in a variety of arngements, from around the rehead to being used as a belt plors ranged from red to green om purple to pink.

The peddle pushers from the fifs made a comeback as did ickers and bermuda shorts. All pants carried a new fad by being binded at the ankle and had elastic waistbands.

Argyle socks were a favorite accompaniment with winter skirts and knee-length pants. On the feet, cowboy boots were still an American favorite, and the topsiders trend remained. The year featured moccasins in every color imaginable

Ralph Laurens "polo" label swept across the United States Polo shirts ranged in texture and color and outnumbered last year's "IZOD" by a large majority

At night, glitter and gold was the fad. Metallic belts and shoes, collar tabs and makeup added shine to an evening on-the-town Accessories such as long gold earrings, big wide bracelets, and gold chains accented the varied outfits.

All in all fashion was fresh and new. Styles, obviously, do influence people.

#### Variety of Theatrical Productions Delight Eager Performers

Insemble we all have to work together, understanding the responsibilities of each production staff and crew member. We strive to keep communication open by seeing each other's viewpoints and by setting and working towards mutual goars," remarked Joan St. John, drama director. A variety of plays included comedy, drama, mystery, children's theatre, and the big musical. With all of these choices, no one could be left disappointed.

This could have been the reason for the increased interest and enrollment. Students showed a great desire to learn more about performing on stage and learning backstage technical aspects. Most students who were involved were upperclassmen. Many freshmen seemed to take more interest in

stagecraft. Plans, however, were taken to have prerequisites for stagecraft classes to attract those who have an appreciation for theatrical production and understand the responsibilities involved

Like with all other extracurricular activities at McClintock, many present and former students have benefitted from attending MHS. Lynette Krutchkoff, graduate of 1981, won a scholarship to Bobby Ball and in the fall will be attending a professional acting school. A graduate of 1982, Patsy Somlo, is now attending a performing arts school in New York Other 82 graduates also received top honors. Greg Autore planned to attend a school in which he will improve his expertise in the field of costume and set design Keith Burns will major in theatre at

a university. Ron Campbell will a welcome addition to anyon-technical theatre program. Cambell contributed many of his taler to Boyle Auditorium.

When asked how plays we chosen, Mrs St John replie "Everyone has the chance to re plays and I make the final de sions. I choose plays that the ci will enjoy performing and the a dience will enjoy watching." [ plays chosen included En Laughing (comedy), Alado (children's theatre), We Ha (drama), and the Music M (musical) Many students, such Neil Cohen, directed plays Col directed a mystery. Catch Me You Can, "Being able to help did a play will be helpful in the futu stated Cohen.

#### Apprehensive Feeling Overcomes Burns; New Family, Alien Land Await Him

" inally, the plane came to a I landing on the Skopje runway and a very small air terminal came into sight. The plane stopped; we got out of our seats, got all our stuff together and we all felt a little uneasy." This was the beginning of a six-week stay in Skopje, Yugoslavia for Keith Burns, Sister City delegate. Burns recalled not knowing what to expect, or even what to think as he got off the plane to find a whole new family awaiting him. Keith described his journey as exciting and very beneficial. "Nothing else could have heightened my cultural understanding more."

Much of this knowledge came in the morning as it was the habit of Yugoslavians to sightsee after breakfast. Burn's family, consisting of parents, a brother Vladimir, and a sister Vesna, showed him more than just Skopje, Side trips included Beograd and Greece. Many of the adventures during his stay involved the three other delegates and their "sister" or "brother." Such undertakings as bumper cars, movies, discos, and walks in town comprised these trips. During many of his days, the main meal was in the afternoon. This was followed by a siesta, and later more sights.

Burns had chosen Yugoslavia over Regansburg, Germany, because it was not as Americanized. Skopje was not as convenience oriented and had no fast-food restaurants. While there were many differences, Burns did notice one resemblance: Yugoslavians went about their business in town and did their own thing just like Americans.

For Andrea Hammond, Rotary Exchange student from Perth, Australia, Arizona held many similarities. "Both are advanced western societies with capitalism, democracy, and freedom of speech." But she added that Australians never have sweet things

for breakfast such as waffles and pancakes. These things are saved for desert.

As part of the Rotary Program, exchange students attended school, According to Hammond, high schools in Australia are more theoretical and academic. They consist of two years and do not offer as many course options. "No one gets out early and no one holds part-time jobs either," she concluded.

While Hammond tried out American customs for a year, Cindy Eichorn, senior, ventured to Lower Hutt, New Zealand in February as part of the Rotary program. Eichorn delivered a message from Mayor Harry Mitchell to the mayor of Lower Hutt concerning the new sister city. Lower Hutt, with a population of about 70,000, became Tempe's third sister city in November of 1981. Eichorn arrived a Lower Hutt which is located on the North Island and is approximately eight miles from Wellington, the capital of New Zealand.

At St. Hildas Boarding School in Per Australia, Andrea Hammond enterta the audience with her role in "Revue."

Yugoslavia provides exquisite sights for Keith Burns as he accompanies parents, Peland Nina Bahamov, and limba Ilieva to the famous region of Lake Orchrid.

#### Week-long Camps Force State Delegates, Anytowners into Real World

mpressed by the sights that surrounded them and overwhelmed by new friendships and experiences, Anytowners and Boys' and Girls' State delegates mixed summer fun with "real life" learn-

ing experiences.

Starting their day off with Hillside singing, Anytowners would then break up into different discussion groups. "It was like one big rap session," described Ken Goodnight, one of the boys chosen for the camp. "They started us out on one subject, but we ended up talking

about everything."

While Anytown members were learning to work with others, so were the Boys' and Girls' State delegates. Contrasting Anytown, the delegates to state set up a make-believe government and did everything from making up laws and passing bills, to spending free time with their new friends around the campus. They had their own towns, counties, bakeries and even a beauty parlor, all of which were conceived by the students. To many members, the best outcome was all the friendships made.

#### Reign of Bemis, Smithers Climaxes Hectic-Filled Week

Reflecting the theme "A Night in Shining Armor," started the excitement of Homecoming week. On Monday, enthusiasm was already high. Throughout the week it increased through lunchtime activities such as, Olympic Obstacle course and "Balloon Stomp." On Friday a decorated campus, courtesy of clubs and organizations, greeted students. Decorations on senior lawn included scenes ranging from knights on horses to the "damsel in distress" provided by the Junior Class

At dusk students gathered for the bonfire held out on the baseball field. As the burning started, pommies and cheerleaders got the crowds going with familiar chants and cheers. Finally, Charger fans hurried to find a good seat for the McClintock/Mesa clash

During the halfitme show, Mr DiGrande introduced the Homecoming nominees. Voted upon by the senior class they included: David Davenport, Larry Graham, Sheldon Jo, Dave Kathe, David Smithers, Beth Bemis, Shauna Keifer, Wendy Merkel, and Dawn Thomas. As the band played the traditional "Best of Bread," Lisa Stratman and Jeff Bergin crowned Beth Bemis and David Smithers, Homecoming Royalty.

#### All-Staters Symbolic of Skill, Ability, Hard Work

Various organizations and news papers presented awards to many McClintock athletes, participating in events from golf through diving. All honors given to these outstanding athletes were well deserved as not only did they represent capability, skill, and hard work, but also they displayed pride for their school

After a tough football season, Tim Casey captured an All-State Award, while Pat Kyler, Bill Toon, Toby Babina, Mark Milbranth and Casey took All-league honors. Having many members qualify for divisionals in swimming and diving, two girls added extra effort and succeeded all the way. Erin Walker, sophomore, received All-State for swimming, excelling in the 50 meter freestyle. Beth Bemis not only was named McClintock's All-State diver, but also placed first in State Diving Competition.

Keeping the school record up to par, girls' golf took their team to state once again and placed second. Carol Berger, Shelly Arredondo, Debbie Wolfram and Rene Whiting copped All-State honors.

Receiving an Outstanding Athletes' Award for softball were Julia Young and Shelly Arredondo Even though their division was no judged for State awards. Young and Arredondo were still invited to Arizona State's softball try-out and received scholarship offer from many different colleges Young had a reputation for being the best third baseman around while Arredondo was well-known for her speed and quickness a shortstop.

#### All-State Sports

"All-League Football was quite an honor for me. I knew somehow all those long, hot, practices would finally pay-off" Bill Loon

### Arnold, Ray, Miwa, Garner Commencement Speaking Honor

ach year the Top 5% chooses the speakers to represent the senior class at graduation. Early graduation caused many conflicts such as who could attend the ceremony. After much deliberation, the honored three included Tracy Arnold, Denise Ray, and Brett Miwa

For the graduating class the dreaded bug, "senioritis," hit with widespread results. Large fluctuations in what normally had been straight A's caused shifts in the

class's top 5%. Fifteen of the 22 students changed positions after their seventh semester and many found themselves no longer in the running for speaking at commencement

Students had to push themselves beyond the normal limits to achieve outstanding accomplishments. The selected few awarded scholarships or inducted into honor societies, reflected the pride and satisfaction of knowing that they had attained their goals.

Monica Moroney's study of social problems aided in the Lucky Scholarship.

## Jen Quill and Scroll Members Chosen

to Attend Convention in California

members from the Guidon and Historian were chosen to represent Quill and Scroll, a nationwide society composed of outstanding members of high school yearbook

and newspaper staffs.

These staffers left to attend the Journalism Education Association Convention held in San Francisco, California April 29-May 1. Top journalists from all over the United States displayed their various techthe students helping niques. improve not only their knowledge in the field but also their own individual skills.

Outstanding Guidon staffer was Jodie Lutz, junior. Jodie was the Guidon's first typesetter. Through her efforts the newspaper's entry to the world of new technology was a smooth transition. She quickly learned the operation of the computer typesetter and assumed a role as a leader within the staff organization.

Representing the Historian staff as the Most Valuable Staffer was Lisa Faulkner. For three consecutive years she contributed her skill, enthusiasm and knowledge to the

1) oted in by fellow staffers, ten staff. The Historian also honored Gretta Kruggle as the most improved and Myra Patton as the most dedicated. "It has been a pleasure working with these outstanding students," offered Rose Duarte, adviser.

> Other distinguished recipients included foreign language students Carolyn Jaap, French; Cindy Cotten, German; and Clark Wilson, Spanish. Also Amy Miller was outstanding English student. A special award was given to Si Gimble. He was chosen as the outstanding Industrial Arts teacher in Arizona.

"Having the teachers approve of me meant a lot, but winning made my senior year much more exciting."—Ted Gould

#### Pearly Gates Enhance Cloud Nine Creating Setting for Crowning of Franco, Gould

On the night of February 13th, frosted windows, a sunburst mural, and pearly gates welcomed students to "Cloud Nine," the Coronation Ball. At the climax of the evening, Angel Franco and Ted Gould were crowned Queen and King. Dawn Thomas and Larry Graham served as senior attendants.

At 10:30, the lobby filled with anxious nominees, four couples from each class and ten from the senior class. Citizenship, leadership, scholarship and service to the school comprised the criteria. Chosen by the Freshman Class were Heidi

Walker and Brant Brinlee. Patrice Cabianca and Andy Saban garnered sophomore attendant positions, while Miriam Huish and Don Schneidmiller represented the Junior Class. The senior nominees, with their parents, then were introduced.

Vickie Matz and Chantal Cummings chaired the ball, and Doug Frye and Mike Batt provided the music. Mr. Mike McBride served as

photographer.

The annual event was sponsored by the HISTORIAN staff, who sacrificed early hours of sleep in order to transform the gym before the festivities began.

Revelling in the atmosphere of "Cloud Nine," couples sway to the beat of "Leader of the Band" as the traditional evening ends.

"The thing I liked the most was getting to meet new friends and getting to know them all better" Denise Ray

#### Key Club Royalty Reestablishes Tradition; Enthusiasm Prevai

On December 12, the Key Club members welcomed the student body to a Winter Wonderland. The Christmas Ball was the first held since 1975. After reviving the organization, the members decided to uphold the tradition of a Christmas dance.

Along with the semi-formal ball came the sweetheart royalty. Chari Caulfield, Nancy Larson, Lynda Mills, Susie Stump, Toby Babina, Dave Kathe, Mark Millbranth, and Brett Miwa received the honor of

Club committee, and later being approved by the administration After approval, the ballots went to the student body. At the ball, Susie Stump and Dave Kathe copped the honors of being Queen and King, with Nancy Larson and Toby Babina serving as senior attendants. Jodi Stratman and Kurt Tingey were junior attendants, while Debbie Bouvier and Kenny Pilcher represented the Sophomore Class. Liesel Lunt and Jeff Knoll

became freshman attendants

According to Lynda Mills, I Club president, "The dance well overall, but we had some ficulty getting it organized becaut the time, we didn't have an viser. Mr. Short, assistant peripal, took over the responsibility during the second half of the yes she added.

Through fund raisers such as dance, the club was able to a about ten people to a convenheld in spring.

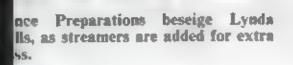

#### Key Club Royalty

"I was really nervous walking down the gym. I had never been nominated before and it was a nice surprise!"—Susie Stump

#### Jacobson Earns Recognition for Excellent, All-Around Service

n order to devote a year of hard work and deadline tensions to one person, is a formidable task. So many people demonstrate their exceptional talents and involvement in Mc-Chintock that each one rightly

deserved recognition.

After weeks of consideration, the HISTORIAN staff chose to honor Mrs. Karen Jacobson, a member of the McClintock family since August, 1967. Students and teachers have known the versattle Mrs. Jacobson as a tennis coach, health teacher, choreographer, anatomy instructor, pom sponser, adviser of the Board of Supervisors, and chairman of McClintock's Committee for North Central Evaluation. Her attitude in and out of school has reflected her interests in her students, her philosophy of education, and her positive outlook on McClintock.

After her birth in San Mateo, California, Mrs. Jacobson moved with her family to Arizona. She spent her grammar and high school years in Prescott. While in high school, she participated in several girls' sports, yearbook, and the annual, junior-senior play. A historical feat, she was the first girl at Prescott High to letter in football as a statistician.

Later at Arizona State she earned a Master's Degree in Physical Education, and acquired a particular interest in the Tempe Union High School District. In 1970, she married Keith Jacobson

Outside of her schoolwork, her daughters Kelly, Kerri, and Kori, play an important role in her life.

Besides her activities at home and at McClintock, Mrs. Jacobson is an instructor with the D.W.I. program at the Tempe Police Department, and also

teaches drug abuse classes at Mesa Community College. Being such an active person, she is also very involved with her church She and her family hosted two Cambodian families earlier in the year.

"Her interest in the welfare of others has always been a genuine one, and she has tried to help them in as many ways as she can," remarked her husband.

The HISTORIAN staff gratefully acknowledged this outstanding educator and chose her as their 1982 dedicatee. Mrs. Jacobson was the seventeenth person to receive such an honor.

One of Mrs. Jacobson's top priorities in life are her daughters Kelly, Kerri, and Kori.

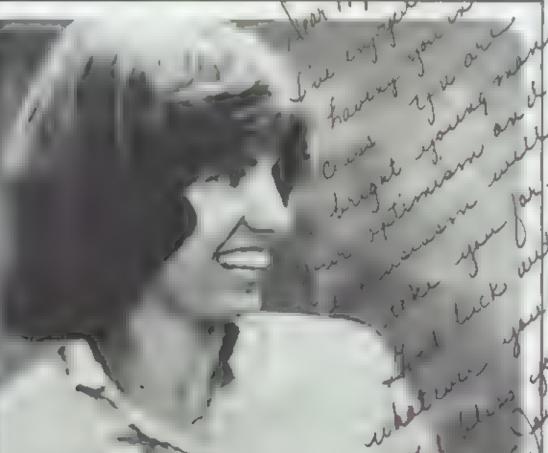

Skits provide Mrs. Jacobson a differopportunity to work with students.

astro focuses her attention on shooting a perfect end to assure an individual win.

#### Returning Lettermen, JV Members, Bolster Jeam's Concentration

concentration proved to be one of the basic fundamentals used by the archery team consisting of two returning lettermen. These two, along with two returning junior varsity members, helped the first year archers to understand the sport better. "Concentration did play a very important role in everyone's performance at every match. The archers who had the greatest ability to concentrate usually had the highest scores," stated Kathy White, coach.

Concentration wasn't the only thing that aided the archers. A new weightlifting program prior to and during the season also proved essential to the team's overall scores.

"I really enjoyed archery. It's more of an individual effort, but at practice, everyone helped everyone else. I've made a lot of good friends as a result of being involved in the sport," commented Vee Castro, second-year archer.

"The beginners, as well as the returning archers, showed a lot of potential and strength. That, along with the optimism of the team improved the season outcome," concluded Coach White.

incentration along with perfect aim assist Rosemary Carnovale to achieve a bullseye.

### Personality Differences, Friendly Rivarly Challenge Player

his year was very unique!"
declared Emma Schindel.
Despite only five returning players,
four, first-year players, Maria Sanchez, Marci Edwards, Lisa
Nothum and Shauna Hall held top
positions on varsity.

"Friendly rivalry" among teammates and between schools played a significant role. Providing snacks for home matches and crosstown rivals "kept the spirit up" and generated amicable relations with other teams. "We are one of the only teams that provide snacks. It's fun and it creates a friendly atmosphere," commented Maria Sanchez, junior."

Challenge matches for top positions offered another form of rivalry. "Off-court and on-court presented the two different personalities of the team. Competition for top ladder positions created court conflicts but off-court we all good friends. Learning to d with this situation makes badni ton even more challenging," sta Lisa Nothum.

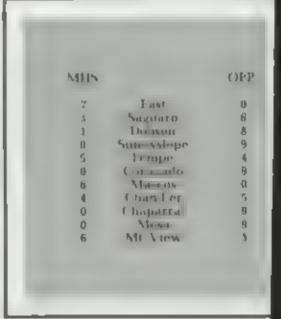

With a season record of team members felt hopeful future seasons. Celeste McMur asserted, "We've got a young te with lots of personality. Next y we'll be awesome."

Prior to the Marcos match, Coach Emma Schindel reviews last-minute factics.

Larry Meyers digests constructive criticism from Coach Barber after participating in a tiresome scrimmage game.

#### Positive Attitude, Speed, Hitting, Aid in Enhancing Performance

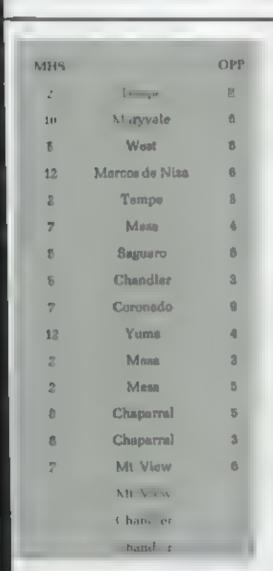

fith an ambitious selection of athletes to kick off the season, the varsity baseball team looked forward to a good season Although a limited number of players returned, the overall talent proved more promising than ever

"The large number of skilled ndividuals made it difficult to cut he team down to a workable number." commented Coach Jim Mer-

rick. Merrick hoped that hitting, strategies speed, and an excellent defense would take the team to the playoffs

Early season practices included basic fundamental drills. The team placed special emphasis on throwing the ball mechanically correct and as the season progressed, the players learned and perfected defensive and offensive

Coach Merrick implemented various different approaches in coaching. Players spent increased time on developing the pitching aspect of the game. He uthized the advantage of the team's outstanding speed in stealing of extra bases. After a trying season featuring seven close games the team hoped for divisionals and state.

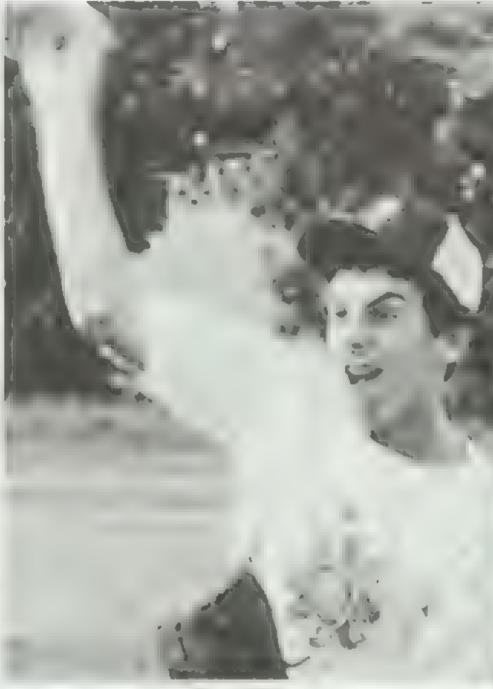

With determination, Coach Merrick shifts positions in the third-inning against Marcos.

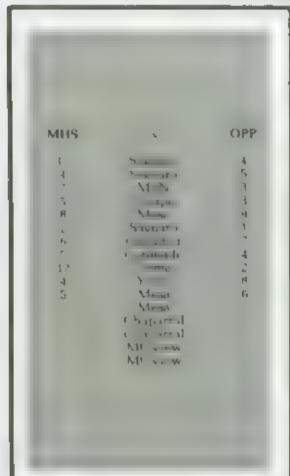

#### JV, FROSH BASEBALL

### Positive Attitude Reflects Upon JV, Frosh Strengths

They aimed to win at least 12 of 16 games, average less than 3 errors a game and bat over 300 as a team. Besides these goals, however, both JV and Frosh strived to develop strong, positive attitudes as a team, no matter how the season ended. Coach Paul DeGrande had high ambitions prior to the season. "This should

be our strongest year in the program at all levels. This year's JV should be playoff contenders," he remarked.

Experience of several juniors helped to solidfy the JV's outfield. Sophomores Larry Steiger and Jason Mondelien also contributed to the strong outfield. JV was very strong defensively with the assistance of Toby Crawford and Brian Martyn. Reviewing the

team's strongest point, DiGrande concluded that the JV seemed better defensively than earlier teams and that the team had more speed overall.

The frosh team acquired a new coach. Bob Rasmussen looked forward to a successful season by starting early to prepare the team both mentally and physically.

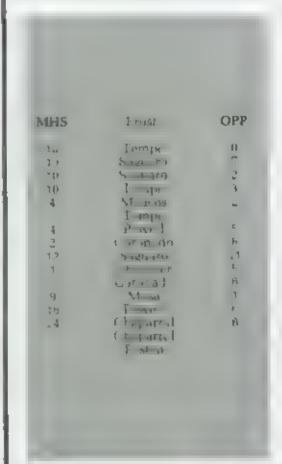

After practice, Coach Rasmussen gives last minute advice for the Mesa clash.

With a wind-up drill during practice, freshman Chris Maxwell perfects his throwing skills.

Back row: Coach Bob ussen, Eric Doyle, Jeff Knoll, Pat Purcell, Herry Hunter, Greg McGowen, Rick Miller, assistant coach

A precise pass by Cathy Rollins strengthens offensive strategy.

#### Positive Outlook, Jalented Members Characterize Jwelve-Girl Squad

"I his is the most talented team we've had," stated Darrell Sheppard, girls' varsity basketball coach, who had a positive outlook when entering the new season. "A good team has intelligence, quickness and heighth," mentioned coach Sheppard.

After one week of strenuous tryouts he chose a 12-girl squad. Members of the team had confident attitudes and hoped for a successful season. Each worked to reach her individual potential goals. Top performers on the court included Diane Sterkowitz, Shelly Arredondo, and Julie Young

The major goal set by the team was to make the Central Division play-off. This made the Dons the team to beat, along with cross-town rival Marcos de Niza

Julie Young drives down the court avoiding the defensive press held by Kathy Martin,

Attempting an overhead pass, Debbie Wolfram searches for an open teammate.

Front row: Sherry Curry, Kathy Dryer, Vickie Matz, Stephanie Smith, Lisa Sucharski. Back row. Jill derson, Tim Matson, Cathy Cutler, Susan Blazzard, Terri Traynor Jenine Sumner, Ed Contreras, coach

"We were optimistic, just like our coach," responded Sherry Curry, sophomore, The team's enthusiasm appeared in a "fun" season. The girls thought one reason they chose to play basketball was because they were looking to have a good time. The coach felt this brought a type of unity among the team also.

With a total of 13 members, three juniors and ten sophomores, coach Contreras added, "They had plenty of previous experience to make up a strong team." Eight out of the thirteen girls had played basketball at least two years. The group's key points were their height and defense.

Coach Kathy Quinn's description of the freshman basketball team was, "earnest and eager." Coach Quinn coached 14 members in her first year at McChntock. She stated, "They're great to coach because they are all experienced and learn fast." The team's talent as a whole appeared to center on their height and strategic skills.

Several unique obstacles faced the Charger basketball team. The cagers had only one returning letterman and only won two games the previous year. On top of those difficulties, a new head coach was on the scene.

It was clearly a rebuilding year for Doc Zinke. In pre-season drills he told his squad two things that were stressed throughout the season. "Our emphasis will be on discipline," he said and then added, "I believe talent overrules seniority If a sophomore is better than a senior, I'll play the sophomore."

Coach Zinke was true to his word. Sophomores played and so did a freshman. Discipline was the cornerstone that led the young Chargers to their first win, an impressive victory over cross-town rival Tempe High in the Christmas Tournament. "That big win over Tempe was the highlight of the year for me," said junior Jamie Ladman.

The young, inexperienced cagers improved with every game. Midway through the tough League A campaign in the Central Division, play-off hopes were still alive as the Chargers scored important wins over the Chaparral Firebirds and Yuma Criminals. The league record stood at 2 wins and 3 losses

The victory over the Criminals was the third win of the year and meant that the Chargers had surpassed the team's previous year

mark. The Criminals fell to the red and blue 56-43. Senior Robb Rollins led the offensive attack with 21 points. Sophomore Jerry Pelley and freshman Jeff Knoll helped out with 15 and 10 points respectively. It was a come-from-behind triumph as the Chargers were down at halftime 22-20. Strong rebounding in the second half by center Scott Babb turned the contest around and helped move the Chargers into a six-point lead as the 3rd quarter ended. Rollins' hot hand put the game away in the final period.

The Chargers appeared headed for their 4th victory when they visited Mountain View and led the Toros 20-13 at the half. A cold 3rd period caused by a torrid Toro press, foul trouble for Babb and an inability to hit the shots brought the Chargers down by a final score of 46-42. Babb led the scoring with 11 points, all scored in the first half.

The Toro loss was fairly typical as the Chargers were able to battle most of their opponents on even terms for at least half the game and then mistakes caused by inexperience led to defeat. Coach Zinke remained optimistic for the future, however, and stated, "We're improving with every game and as younger players gain experience, we'll surprise some teams and post some wins. I'm really looking forward to next season," concluded first-year mentor.

Utilizing excellent form, Ray Sabala successfully completes a book shot.

## JV's Lose Talent, Gain Solid Experience; Freshmen Achieve Successful Record

espite the loss of three sophomores and one freshman to the varsity, the JV team completed a good season of 8-11. Coach Richard Olsson stated that the team made up for the losses by consistently improving

"The players that lacked experience got to play more because of the move up to varsity. We lost some talent but a lot of experience was mented Olsson

del Sol and Chaparral, but Chan- concluded dler ended the JV's winning streak

Olsson named Ray Sabala and Greg McEowen, freshmen, as strong additions to the team. Commendable support was also given to Scott Briggs, center, and Richard Martinez, point guard.

Meanwhile, the freshman team achieved a season of 11-5. Under the leadership of Coach Randy Barber, the team defeated both Tempe High and Chaparral. This was gained by other players," com- obtained by the team's strong defensive and offensive efforts. "I Early in the season, the team really enjoy coaching the team defeated Mountain View, Corona They have a lot of potential," he

# Positive Attitudes Aid in Helping Both Teams Achieve More Stamina

A lthough small, the cross country teams were big when it came to effort. Each team cooperated to gain strength and unity

Brian Briggs, boys' coach said, "The majority have done well; they are small but have lived up to their potential and worked hard. The Chargers have lots of spirit and positive attitudes seemed to help." Briggs added that the best runners, David Terry and Andy Saban, were even better. He emphasized that with more recognition the team could recruit more members and encourage more participation.

Although Jeri Coe was the single returning letterman, the team did well. Sandy Byra stated, "The team has had tough competition. This has really been a rebuilding year." Margie Coking placed first in all but one of the meets.

Both coaches agreed that hard practice and rugged rivalry promoted immense improvement.

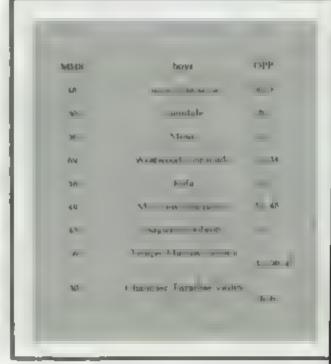

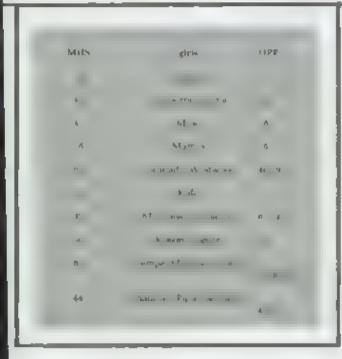

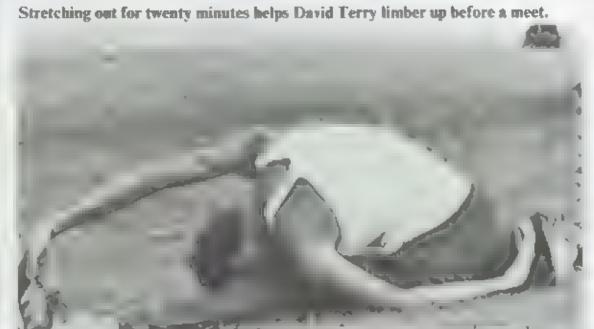

Good strategy proves the subject of Coach B talk for upcoming meet.

#### Success Overshadows Trying Season

Go...Go...! resounded from the stands as loyal Charger fans anticipated the first kick-off of what was to become an unpredictable, if not productive season

With a state title to defend, and a reputation of being winners, they started the season by settling the score with cross-town rival Tempe High

Following the 20-6 revenge over the "Buffs" the team met Brophy, who held the Chargers final attempts and won 17-10

After rebounding to trounce Maryvale 39-13, Marcos de Niza fell by a score of 34-12 to the "Charger Machine."

What seemed like a winning streak was short-lived, however, as Coronado rallied to edge the Chargers by a mere field goal 10-7

The fall to Coronado led the team to the next match in Yuma, where they "Crushed the Criminals" 28-14

Even with an encouraging victory, however, the team fell to Mesa 7-26 in a disappointing Homecoming match

The defeat may have been the needed factor in the strong endeavor to come back. Team unity and an extra effort enabled the Chargers to beat Chapparral in a 14-0 shutout.

Balance and coordination prompts Mik Coffinger to grasp for full possession.

With forceful drive, Phil Goold outsmarts a Mesa guard and breaks through a tackle.

Breaking a tackle, Dave Kathe picks up the needed vardage for the drive against Me

# Tight Situations" Incite Teamwork From JV Frosh Gridders

reg I helander outsmarts his Mountain View guard and clears himself for a pass.

"O ne of the first things I noticed about the teams was their ability to work together," remarked Pat Begley, JV manager. "Especially in tight situations, they tried to help each other out for the benefit of the whole team."

The freshmen team shone through in several tight clinches to emerge victorious. During the Marcos clash, in a 3rd and 15 situation from the Charger 10, David Ramon, running back, grabbed the handoff from Jeff Knoll, quarterback, in a draw play to run for a 90 yard touchdown

Singled as outstanding JV players were Pat Whitlock and Toby Crofford, who accumulated the most Charger points. Outstanding freshmen included Steve LaValle, who earned the most Charger points, Jeff Knoll, and Greg McGowen

"I see a lot of potential in these boys," stated Phil Abbadessa, freshman coach. He concluded, "In a couple of years these guys will be tough material for varsity teams and possibly state honors"

Pat Whitlock stated, "It's been great to work with the JV team. The coaches and players got along well and worked towards team unity."

# Similarities of Two Seasons Revealed Present Jeam Is Clos

That was the way that the girls' golf season would have appeared at first glance. Again the team lifted second which was similar to their position last year at

state competition

The members make a team; here in lies the change and difference for the girls' golf team. With five returning members out of a total of six, the girls were very close and comfortable with each other. The team was smaller than in years past and this caused them to draw together and strengthen their support of one another. "They were a super group of girls," was the praise from Dave Hatten, coach, "Their closeness helped the whole team to be effective," continued Coach Hatten

The girls were strong in team play. Their total score was good with each girl contributing and none being a weak member

11 5 51 Variet 6.45 McClintock Marcoy de Niza 190 Agua I ris 847 Westwood tok. Curona det Sot 197 Mesa Central 907 leofu (000) Camelback 1093

"I feel that the girls had more determination because of our past record," stated Coach Hatten. This resolution to be first class showed through as Carol Berger placed fifth, Rene Whiting placed sixth, Shelly Arredondo placed ninth, and Debbie Wolfram placed tenth at the state divisionals. These achievements qualified the four girls for All State. "I enjoyed coaching golf because of the cooperation I received from the girls," commented Coach Hatten "Their super attitudes made for a winning season which made for super fun," he added.

To become good golfers, the girls

had to desire to excel. The amount of their efforts and concentration was affected by this inclination. "My job was to recognize the desire and help coordinate their efforts to work towards those goals summarized. Coach Hatten. It dividual practice throughout the whole year emphasized the gir skills.

"I feel that our team was modefinitely different from previous years," asserted Rene Whiting senior returning letterman, "The was a deep base of empathy amothe girls which led to us being very close team," conclude Whiting.

Getting out of a sand trap, Rene Whiting concentrates on form and follow-through

Determination aids Carol Berger in achieving excellent form.

Senior Vissy Monsegur works on swing techniques at the sixth hole.

# Both Ability, Attitude Earn Jeam Winning Record, 7th in State

Strong golfing ability and an excellent attitude enabled the golf team to complete a successful record and to place seventh in state competition. Coach Ray Knudsen credited part of the success to John Dougherty, senior; Alan Newman and Ron Kathe, sophomores. Dougherty and Newman led the team in state, and Newman teed for fourth individually at divisionals.

Knudsen observed that Mac's seventh place in state was due to losing senior golfers. "We weren't quite as strong as last year. We lost two seniors who were good golfers," he commented. Though weakened in playing ability, Knudsen felt the team's attitude was excellent. "They are one of the better teams I have coached and very well behaved," he stated.

With returning golfers Newman, Kathe, Tal Anderson and additional players David Cole, Jim Crever and Tom Zarembinski, Knudsen felt optimistic about next year's season. "Next year we'll have a legitimate shot at the state title. We'll be strong," he concluded.

Concentration aids David Coles putt.

# hannon, Experienced New Coach, Benefits Gymnastics Squad

t the Chapparal clash, Robin Benincasa anxiously anticipates her floor routine.

or the first time in MAC's history, the girls' gymnastics team worked with a male coach. With ten years of experience as a coach and a competitor, Quinn Shannon replaced Pamela Harris who coached for four years

Having coached at private clubs, Coach Shannon discovered high school gymnastics appealing. "One thing that surprised me though, is that the hard work and excitement of the high school gymnast equals or sometimes surpasses that of the private club gymnast!" he noted.

Coach Shannon also marked another first by not cutting anyone who went out for the team. He explained, "I believe that gymnastics in Arizona's high schools is slowly beginning to disappear, and I wanted to see as many girls as possible participate. The athletes tend to make their own cuts as the scason approaches."

Even with two and a half hour workouts each weekday and optional practices on Saturdays, Coach Shannon found it difficult to divide his time among each gymnast. Comprised of three seniors and 12 all-arounders, the large team worked together. "The older, more experienced girls help a lot by coaching the newer girls," commented Shannon.

# SOCCER

With tremendous agility and a high lengthy stride, Dave Arthur, forward, sets up for a goal against Tempe.

# Small Size Handicaps Season, Yet Jeam Remains Enthusiastic

In spite of a winless season, the varsity soccer team remained enthusiastic. "Throughout the year we never gave up; in fact, some of our best games were played against the top teams," explained Robert Rasmussen, coach.

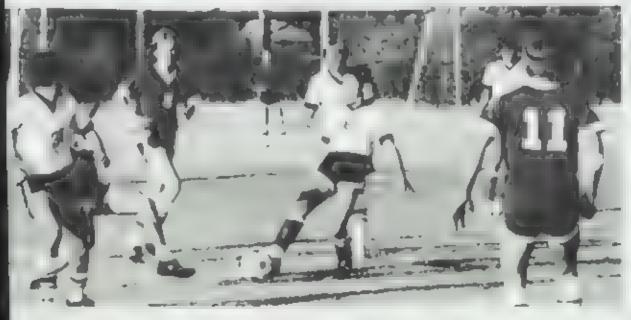

Like all sports, the team conronted many different caliber eams. Yet, size determined a win or a loss. Composed of approxmately 35 members, over half reshmen, the team found it dificult to confront a team such as 1t. View that had 10 seniors and ne junior as starters, "We are the smallest team in the league. Many of the players don't play other sports or even on an outside soccer league," confessed Rasmussen "We also lack size because the students on football are not permitted to play soccer."

The Charger offense was its main strength. Forwards such as Mark Waugh, junior, and David Arthur, sophomore, led the team to many close games including two ties. Opposing Arcadia, Arthur scored three of the team's four goals

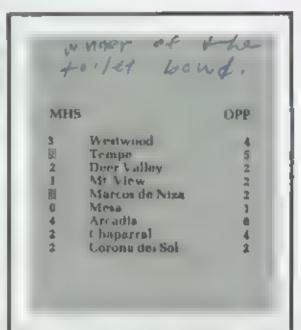

Losses were due to the team's

lack of defensive ability. "All of last year's defense graduated including the starting goalie," remarked Rasmussen. "We had to use the year to rebuild."

Although the team had its difficulties, the outlook for the future is bright. "With all but two players returning, we will be better prepared," announced Rasmussen. The team has gained the experience of competition, intensity and teamwork. "I'm looking forward to a bigger and better season," concluded Rasmussen

tilizing an inside-foot pass, Ray Mandichi clears the ball toward the opposing goal.

essiveness pays off for Pat Hoddy, allowm to head the ball to the MAC forwards.

Coach Robert Rasmussen stresses the importance of height and accuracy for kicks.

# VARSITY SOFTBALL

In between innings at the Tempe high clash, Coach Paul DiGrande delivers a pep talk to team members and reviews starting lineup.

Shelly Arredondo smashes a grand slam earning McClintock a 10-4 victory over Tempe.

# THS OPP At a base of the second of the sec

# Personality, Attitude Determine Success; Young, Arredondo Most Valuable Players

Ley factors such as enthusiasm, a positive attitude and teamwork helped the varsity softball team achieve a winning season of 12-7. "Their overall personality was tremendous. It was a lot of fun to be associated with this group of girls," commented Paul DiGrande, coach.

DiGrande named Julie Young and Shelly Arredondo, seniors, as the most valuble players on the team. Young and Arredondo were also named the leading hitters and fielders for the season. Coach DiGrande also credited seniors Nancy Howell, Tricia Powell, Missy Monsegur, Mary Trehearne, Amy Wozniak and Michelle Ramirez, pitcher as excellent players.

Early in the season, MAC defeated rival Tempe High 10 to 4 and also finished off Mountain View and Mesa on their way to divisionals. DiGrande stated that the team completed several errorless games which included two 10 to 0 victories over Mesa and Chandler. The team placed first in league, but succumbed to Tempe High 10 to 8 at divisionals. "It was a great year! We got off to a terrific start," he said.

DiGrande expressed confidence in next year's season despite the loss of graduating starters. "They will be hard to replace, but the JV team finished the season with a 13-2 record, and the freshmen are very good," he concluded.

Coach Paul DiGrande offers Michele Ramirez advice on pitching techniques.

# Shimon, Contreras Add Vitality to Jeams; Groups Garner Both Championship Titles

Continual changes reflected from the softball teams this season. Ed Contreras who coached the JV team last year came back as an off-campus coach to instruct the girls again. "I'm glad he is back. The one thing that stands out about him is his personality. He gets along well with everyone," offered Stacey LaValle.

The team finished the season with a final record of 13 wins and three losses. This, however, didn't stop them from succeeding to win City Championships on the JV

level.

Although their games were shared by few spectators, the JV team sailed through the season with outstanding performances by players such as Cathy Dryer, Jennifer Hamblen, Sherry Johnson, Ann Plachecki, and Stephanie Smith.

Jean Shimon handled the program as the new freshman coach.

One of the main advantages in the success of the frosh season was having strong players. "They appear to have really worked on their team effort," stated Tammy Hobbs, softball fan.

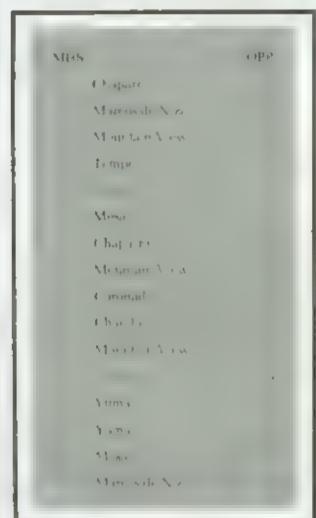

The work performed paid off as the team finished 14-2. Suspected lack of experience proved wrong as their winning attitude captured the City Championship title.

Perfect timing proves to be essential as sophomore Cathy Dryer awaits an unexpected double play.

Winding for the pitch, Valerie Vieth concentrates on the catcher's signs.

long with being a favorite expression, "excellent" also described the 1981 girls' swim team. According to coach Tom Timpone, "The team was a fantastic group of enthusiastic girls with both established talent, and potential"

potential."

Kicking off the season with a loss to Yuma didn't hinder the Chargers. They went on to decisive victories over Gilbert, Marcos de Niza, Westwood, Tempe High, and Corona del Sol. After a disappointing loss to Saguaro by only five points, the team progressed to take fourth at divisionals, which were held in Mesa. Advancing to state were both the medley and free relay teams, Heidi Walker, Erin Walker,

and division winner, Beth Bemis, who competed in the individual swimming and diving events.

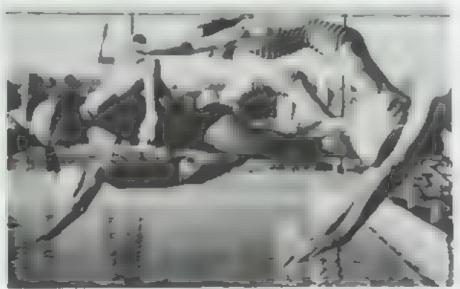

On October 12th, seven nervous athletes found themselves at ASU for the state meet. After it was all over, the free relay (Heidi Walker, Dana Reynolds, Debbie Bouvier, and Erin Walker) had grabbed fourth place. In individual events Heidi Walker placed 7th (100 fly) and 11th (100 breast), and Erin Walker copped 3rd (50 free) and 3rd (100 free). The high point of the meet came as Beth Bemis walked away with the state diving championship. The potential, talent, and enthusiasm had all come together to form a first class effort.

Erin Walker prepares to swim the last leg of the free relay.

Pam Harris and JoAnn McSpadden compute the diving scores.

At the starter's gun, the 100 meter breast stroke commences.

## SWIMMING & DIVING

# Boys' Swim Jeam Includes Only Jwo Returning Lettermen

Swimmers faced a challenging and rebuilding year. With only two returning lettermen, they had to work hard to prove their strength. The team remarked that good coaching was one of the things that made it more enjoyable and helped them to work harder

Backstroker Matt Joganich proved to be a very worthy participant. "Matt has good form and a lot of potential, he'll go far if he keeps up the good work," stated Coach Timpone

Other outstanding team members were Todd Sheldon, Gary Stewart, Dane Miwa, and Brian Scholz

Having a young team and lacking depth were some of the drawbacks that faced the swimmers

"The practices have helped me to improve my strokes. We have a lot of fun, Coach Timpone really gets us to really try hard," concluded Richard Jeanes. Wendy Graig, mgr., Arnold Cornejo, Darren Cervantes, Mike Mastrocola, Ste Cervantes, Coach Martin.

Jeam Efforts Result
in Positive Season
of Noted
Improvements

Movtivation, teamwork, and conduct are just a few building blocks for a good tennis team. All these qualities and more were evident in both the girls' and the boys' freshman teams. "The practices after school have really helped me. Coach Veeh has helped me a lot too," said Erik Andreasen, freshman.

As the boys' team ended the season with a 4-8 overall record, Alan Veeh, coach, held a positive attitude. "The team has shown good improvement since the beginning of the season. The only thing holding them back is lack of playing experience."

When asked about being on the girl's team, Donna Sites concluded, "The hardest thing about being on the team is working at things and getting them right." After watching his girls' team during a long and hard workout, Coach Allred concluded, "The girls have the motivation to go on and play JV or varsity this spring."

Trish Powell strives for improved marking.

Bretta Gluck awarts Coach Kerby's instructions.

Endurance proves beneficial as Sabina Steinbach strives for distance

# Kerby's Optimism, Strategy, Experience Benefit Eager Squad

After the first hurdle, Nancy Larson strives for improvement.

A nother successful season" was the prediction of Coach Lou Kerby when asked about the girls' track team. "Traditionally we do good because we work hard; we have good team leaders and we always have fun no matter what we're doing," added Coach Kerby who was starting his 7th season at the helm

Senior Trish Powell, winner of the most valuable performer award in 1981, was looking forward to even tougher competition than before and stated, "Track is really great at McClintock because Coach Kerby makes fun the number one ingredient." "Our team has great unity and most everyone has a super attitude," she commented

The girl tracksters began the season with medium conditioning workouts and then hit an accelerating pace that prepared them well for the competitive meets ahead. Assistant Coach Vicki Bustillo, an MHS graduate and former Charger sprint star emphasized the importance of being in great condition.

Nine returning lettermen along with some outstanding new prospects were the nucleus of the squad. Consistency in coaching also helped.

g for the finish in the 400 meter, Dawn s, concentrates on her stride.

### VARSITY TRACK

# Previous Records Provide Big Incentive for Hopeful Season

Records for the boys' varsity track team have been exceptional for the past few years

Bill Crofford's general impression of the pre-season team way, "Young and mighty." He added, "This is the smallest and youngest team I've ever had."

Returning tracksters provided the foundation for the team. Darwin Hughes, returning state discus champion, faced the challenge of repeating many fine performances In the sprinting events, the team looked to David Smithers and Dennis Owens. Kevin McCrary contributed his talents in hurdles in the team effort. He noted, "The only hindrance was lack of experience." Darwin Hughes, returning State discus thrower, sets a rhythm for his next throw.

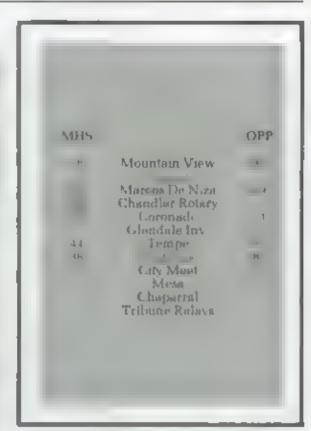

Despite warm weather, Kenny Pilcher bends for this line to win the 440 run against Mountain View.

For Kevin McCrary, timing is an important aspect of working on starting blocks

# Lack of Interest Dissolves Frosh Squad; Championship Aspirations Predominant

fith consistent sportsman ship, dedicated athletes strove to reach their goals by aiming for state championships. Although the boys' JV and freshman teams suffered a considerable loss of applicants, one team emerged and was able to succeed As a result, both the boys' and girls' teams climinated freshman squads from any competition this season "I'm disappointed that McClintock wasn't represented in the frosh meets, but I think the runners from JV and varsity are good enough to make up for the loss," commented Vivian Manherz

According to Bill Crofford, coach, the number of participants was unimportant; it was the team's strategy as sprinters, shot putters, and discus competitors that headed the squad and led McChintock to an outstanding season. Mental awareness and preparation before each meet provided the runners a chance to enter the contest with an edge over the other contestants. This aided both boys and girls through more extended meets.

Although games didn't start until March, runners sacrificed free time with pre season practice "It gets you in shape. Coach Crofford tells you what you're doing wrong and what you need to work on," mentioned Herschel Powell

Prior to an afternoon practice, runners receive instructions from Coach Kerby.

# Varsity Volleyball

# Varsity Volleyball Individually Skilled in Strength, Endurance

t the start of the varsity volleyball season, the team felt they would be stronger with five returning lettermen, three of these were seniors. The team did not have the strength they wished to have so they strived for it individually

Team strength was perhaps a disappointment. "Their strength is that they are individually skilled," stated Coach White, "but they did not work together; strategy won't work unless everyone works together."

The team spent an average of three hours a day practicing and participating in games every Tuesday and Thursday. They had a Player of the Week Award which was based on individual status. Nancy Howell, Arlene Burns, Ellen Toms, and Julie Young received the award throughout the season

One of the highlights of the season was their first win, against Mt. Veiw 2-1. The other win against Mesa High blocked off the losses and made those who planned to return look forward to the next season

Coach White plans to continue building skills next year. "The girls coming up and the returning lettermen all have good attitudes," Mrs. White added, "They are finally getting experience. The future looks good."

Karen Shook, freshman, relaxes duri needed time-out at a Charger game.

#### V. Freshman Netters Utilize Their Attitudes to Improve Abilities

Reping the spirit up appeared to be the main factor he JV volleyball team according Angie Hatten, junior. With a son record of 2-10, it could have n easy for the JV to get couraged Renee Bailey, JV th, rebuked, "The fact that we ten't winning didn't affect their ire to do better "A team rule encouragement and that was bonsible for the JV's soaring it," responded Kim Auer, homore.

V's commendable victories were Mesa High and Yuma. It was that their winning attitude pulled JV through to a 2-3 game score against Mesa High, and they repeated the same score against Yuma at Yuma.

As a freshman, Amy Howell obtained the qualifications and skills to play on the JV level. She absorbed a lot of experience for tougher competition. Playing for the freshman, Sherry Pitts and Liz Locke rose to the peak of their team by exerting themselves.

The turnout for the freshman team was very reasuring to Stephanic Davis, coach. "The turnout compared to last year has been complete since the first day of practice and this led to their strong playing skills." With a record of 10-2, the freshman felt they owed their attitude to their indestructible teamwork. Freshman showed consistency throughout the season, as they lost twice to Chaparral. Both these games were tense to the end as the girls continued to play three matches each game.

According to both the freshman and JV coaches, each team's strong points revolved on unity. I'm really looking forward to next year and the better competition," commented Liz Locke, freshman.

my Howell clears the way as Angie Hatten approaches the net to save a ball.

#### oung Jeam With Desire, Determination Confronts Challenge

Ithough the varsity team lacked experience they won "desire and attitude." The son commenced with only four estlers returning from the larger's previous outstanding its. "Many factors contributed the outcome of this season," exined Dennis Johnson, coach.

"We lacked the wrestling skill of previous seasons and had to rebuild. In fact, we even added freshmen to the varsity roster,"

Lack of enthusiasm also created a gap in morale, school, parental, and administrative support were low. Yet, through it all, the team united and created a well-oiled machine. "The excitement of the individual competition added to the strength of the team as a whole," interjected Johnson.

For the Chargers, the desire to win and succeed became a combination of four main elements. In order to compete, the wrestlers had to have the mental determination to go one-on-one. "We work to convince them that they can be better than the opponents that they face," emphasized Johnson.

Besides the mental aspects of the sport, the wrestlers found themselves often fighting a physical battle, "Making weight" was a challenge for the team Days of fasting, hours of running, and sweating off extra pounds were included in their already rigid curriculum. Strength and good body balance were also required of each Charger, Practices were geared to "make sure everyone was in top physical condition," related Johnson. Hours were spent working on the basic skills to compensate for the members' lack of experience.

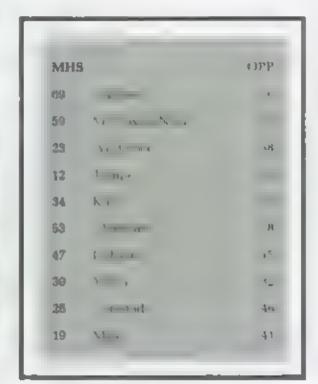

The hard work and extra hours paid off for the Chargers throughout the season. The team took third overall at the Christmas tournament. Steve Evangelesta captured a first and Jim Perry, a second. As the year progressed the MAC wrestlers shone with success.

## Good Attitude Helps New Jeam Acquire Pride

9 wrestled when I was in junior high so I knew what to expect, but a lot of the guys had never wrestled before this year so they didn't know how much work it was going to be," stated Steve Beaver. The wrestlers started in early November practicing moves and doing strenuous exercises to get in shape and to the right weight before the season started in December. All the conditioning and drilling was well worth the efforts put in by the wrestlers and they ended the season with a 6-4 record. Their first win was to Apache Junction with a score of 36-27. They succeeded in winning the remaining matches aside from the loss to Tempe High.

Some freshmen excelled in their potential to wrestle. "Two of my boys are on varsity this year. Derek Smith and Ernie Garza both display a tremendous talent for the sport," commented Larry Faust,

freshman coach

The J.V. team also had some exceptional wrestlers that aided in their success. Paul Farina and Mark Christensen went almost undefeated throughout the season and pinned in nearly every match. The team terminated the year with a record of 6-4 and a sense of pride in being a part of a winning team.

Front row: Steve Benrubi Brad Conover, Shawn McCourt, Jim Raffone, Blaine Stattery, Tom Talbott, Scott Morrison, Second row: Greg Theilen, Mike Treffers, James Raab, Larry Steiger, Dave Gurley, Kenny Johnson Rick Tamburo. Power, Success, Honors Dominate Seasons Spring Athletes Continue MAC Traditions

Jime, dedication, and success are traditions in McClintock athletics. Students spike, stroke, and sprint through the season, through divisionals, and for a few, through state. We, the HISTORIAN, proudly recognize the outstanding athletes from spring sports 1981.

#### Jennis

Following a nearly perfect season, the girls' tennis team copped second in divisionals. Tracy Becker swept the individual competition, winning first place in the singles category. The doubles team of Julie Gilstrap and Shauna Keifer took third while Heather Gilstrap placed fourth in singles. At state the team captured second, and Tracy Becker became the champion in singles.

#### Boys' Swimming

A successful season with a record of 5 and 2, launched the boys' swim team into divisionals and state. The free relay, consisting of Tim Lofgreen, Brett Miwa, Matt Joganich, and Greg Crever, took 7th. In individual events Lofgreen placed 7th in the 100 back, Joganich placed 8th in the same event, and Crever took 6th in the 50 free and 9th in the 100 free.

#### Gymnastics

The gymnastics team captured

third at divisionals. Two representatives competed at state: Wendy Merkel, copped 7th in the floor event, and placed third all-round, Beth Bernis, took 5th on the bars, 6th on the vault, and overall 7th in the state.

#### Track

The track teams had triumphant seasons. Outstanding in their event was the girls' relay team consisting of Lynda Mills, Karen Gragg, Arlene Burns, and Tricia Powell. The boys' relay team of David Smithers, Danny Hinds, Kelly Greer, and Jeff Bergin excelled at divisionals.

#### Outstanding Athletes

Chosen as outstanding athletes for the respective classes were: freshmen Erin Walker and Richard Long; sophomores Tracy Becker and Bob Hamm; juniors Shelly Arredondo and Tim Casey; and seniors Josie Ortega and Robert Ruiz.

#### Hall Of Fame

New members to the hall of fame in 1981 were Chuck Abbadessa, Karen Gragg, Danny Hinds, Greg Land, Robert, James Sosinski, and Jonathan Warren.

These exceptionally gifted athletes contributed to the tradition of excellence and outstanding class at McClintock.

#### ԵՆԱԻՐԱՆՆԵ ԵՐԱՐԵՐԻՐԻՐ ԵՐՐԵՐԻՐԻՐ ԵՐԻՐԵՐ

fter the excitement of prom and graduation, what happens to high school seniors? One question that puzzled many students was whether to reach for higher education. Could the years of hard work and serious study advance students toward their goals or would the adventures of a working world grasp them?

To avert the problem of selection, students took tests and consulted counselors to help in their final decision. Anneliese Ragan, senior, commented "I had a good idea of what I wanted to do and where I wanted to apply, but my counselor really helped me with all the paper work."

The ACT and SAT standardized tests proved a necessity for students who considered college ife. Universities and colleges highly recommended both tests prior to admission. The SAT Scholastic Aptitude Test), consisted of timed verbal mathematical multiple-choice questions. "The scores, however, depend on the individual's academic preparation," stated Jackie McCullen, counselor. Students also referred to Interest Inventories which helped them to see what area they were strongest in and decide on a college or university.

On the other hand, a further education, for some, would be useless. For Hugh Kruggel, junior, success will come from his experience in handling a truck. He commented, "More schooling would be a waste for me. I want to be a transportation engineer and work with my father." Can students who do not attend college support themselves in a satisfying and rewarding job? "I think the ability to transfer from a high school environment to a working society involves strong emotional stability, which many people don't have," offered Lauri Kaufman, senior.

Results of a poll revealed that over 85 percent of McClintock students believed three-fourths of their graduating class would appiy to a college or university. "The importance of education is greater than it ever has been. College graduates earn thirty percent more annually than high school graduates," explained Warren Dennis, music instructor. According to the registrar's office, however, the number of students enrolling in college is forty-six percent.

Growth happens throughout peoples' lives, but the ability to learn along the way is a personal goal and achievement. In a poll, the question, "Do you know what you will be doing in twenty years," found the results to be split half and half. GiGi Gonzales, senior, noted, "Hopefully I will become what I've always dreamt to be: a child psychologist."

The deciding vote between four years at a university and a profession was a very difficult one, but the guidance provided by counselors and resources helped students make final choices.

Terry Barnett reviews in tramural wrestling plans.

## 

Inderstanding and cooperation commented relationships between the faculty and students. Whether figuring out schedules with a counselor, or proving theorems in geometry, the learner-educator encounters proved inevitable. "Everybody in administration tries his best to help the students: that's what we're here for," commented Mrs. Margie Mendez, secretary.

Most teachers found they could be friendly with their students. Of the faculty interviewed, all felt the ability to communicate and to help students was especially apparent. Frank Zinke, science instructor, explained, "I'm friendly with people, yet I try to keep it a professional relationship at a professional distance. The players in my classes aren't treated any differently from my other students, because I don't

To his Zoology Class, Brad Olson delineates the process of genetics in animals.

connect sports with the classroom."

When questioned about studentteacher relations, over 95 percent of McClintock students affirmed that their teachers were willing to help. Mike Williams, senior, offered, "My teachers help me to learn the things I need to know, so I can make something out of my life in the future."

Both teachers and students felt the ability to get along was a special asset at McClintock. "I'm planning to graduate early and my teachers have really helped me prepare for college," commented David Ligon, three-year senior.

Micheen Moroni, a new junior from North Carolina, found the teachers friendly. "Most of my new teachers seem truly concerned about the individual student, and I like that. It creates a relaxed atmosphere in class."

tephanie Davis, Sandy Byra, Casey Capps, Chris Crowe, and Laurie Slemmer were a select group of teachers on the faculty of 1982. These five shared a unique experience as all of them graduated from McClintock.

Although repetitious, the science teafamiliar campus and school them as ma policies proved an advantage, them come to "The school is older, but a lot of cessful. That he activities and traditions are the most rew the same," remarked Sandy a teacher."

Byra, math teacher, and 1971 graduate.

Although there could have been a possible conflict of interest between them and the staff members, the faculty enjoyed a very stable and pleasant relationship. Karen Jacobson, health and science teacher, said, "Seeing them as mature adults is having them come back and become successful. That, I think, is one of the most rewarding parts of being a teacher."

A concern arose about the fact that McClintock hired such a high number of students that graduated within the district. The faculty of 1982 included Dora Kovascik, attendance secretary, and Margie Mendez, activities secretary. When asked about this situation, Karl Kiefer, football coach and Tempe High graduate stated, "I feel that it's a plus for Mac. We want the best teachers and it only proves more for McClintock and its students."

definitely feel that sports are not overemphasized at McClintock because you can't overemphasize the responsibility and self-worth that they teach," stated Harold Slemmer.

Many schools focused on their structurities at the tres such as romal articlabs and speech as in heart clabs are than their nucles. Although McClintock shad such a successful sports roman, some of the students of that other activities weren't tressed enough. "I feel that our reademic programs are just as important as our athletic activities and therefore should be tressed too," said David smithers student body

president.

Some students felt that the emphasis on school programs was adequate, but should be spread more equally throughout "I think sports are recognized quite well on campus, but I feel other activities should get equal-publicity," expressed Dianna H.L. schior.

Others disagreed with these statements. "I feel that there is a pretty fair balance between sports and other activities," which Hayden Craig, Assist, or publicity has been greater on our sports (especially football) because we have been so successful. This makes it seem as if

Toby Crofford excels at finish line.

sports have been overemphasized."

Karl Kiefer, P.E. teacher and head varsity football coach, concluded, "It deals a lot with what side of the fence you are on, but I feel a high school's program should meet the needs of all students. We are known for our total program. McClintock is a great high school for both students and teachers,"

Ronnie Weston, sophomore completes his math homework.

# הרוק הרוקה הרוקה הרוקה הרוקה ההרוקה הרוקה הרוק

hat did you consider the very best to bring home on your report card? Probably straight "A's" right? In today's educational system what were students looking for or trying to achieve: grades or knowledge or both? "I would hope students would take both into consideration, but some students might be taking the easy way out," stated Rose Duarte, English teacher.

"I think some people are only going to school to get good grades to show prosperous colleges or universities," expressed Neal Anderson, sophomore. He added, "These people lose perspective on the learning process while trying to attain these grades." Some people felt that good grades get them accepted in their desired college. But, what happens in the process of attaining those grades?

Darrell Sheppard, English teacher, concluded, "I think when you break it all down, most of the people would prefer to learn something."

as to why some students take classes earlier than the average student does.

Before the annual registration, the different departments set prerequisites for the classes they offer. They consider the work, the level of difficulty, and the students' abilities, in order to meet the standards for advanced classes.

Math courses, junior and senior required classes, and sciences were offered to younger students. Some Connolly eighth graders ventured to enroll in high school geometry. Although the science department had a special honors program, some students preferred taking regular classes a year early. "We encourage eager pupils to take more challenging courses," commented Kathy White, biology and physical

3%

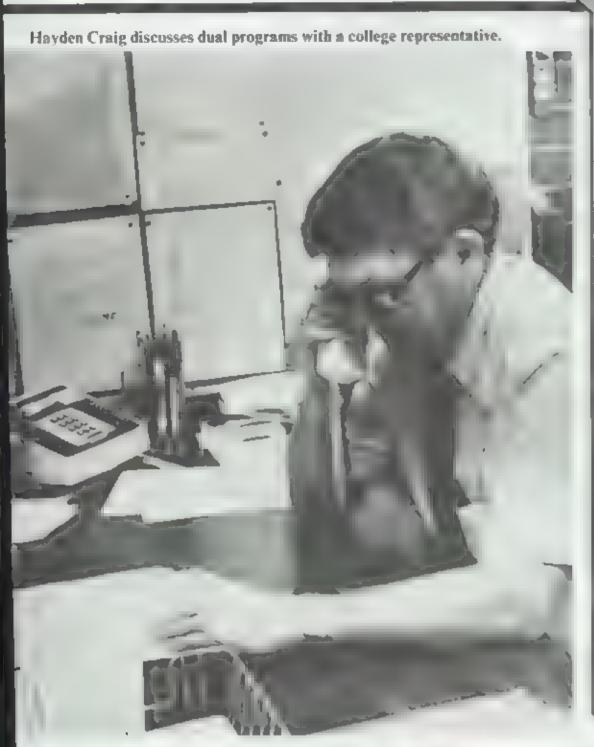

science teacher. "It assures more interest, and is also a setup for possible science majors."

If some of the required classes were opened to all grades, however, the number of teachers would have to change. One-year hundreds of students might have taken American History and the next year forty. Some of the students who took harder classes a year earlier or ahead of schedule, could easily set up their work schedules around their jobs. Dual programs, attending both high school and college, were also used to help seniors.

Kate Neuheisel, a junior who took Arizona History, advised, "Considering every activity I was involved with, I strived to even out my schedule instead of looking forward to an 'easy' year."

heen president of the Tempe Secondary Education Association, which is open to all the teachers in the Tempe district. Three previous presidents have been Bud Basic Rose Duarte, and Eric Ladue.

Janet Cox, who teaches mathematics and computer programming presently serves as president of ISIA Max Cox felt the reason McChintock teachers have dominated the presidency was because they have had a higher level of involvment in the association, and the greatest number of enrollment over all the other schools.

In 1980-'81 the president of TSEA was Eric Ladue. Mr. Ladue felt the reason for more interaction from McClintock Leating was

because other schools had teachers who may not have seen as much need to belong to the association or wanted the expense of belonging.

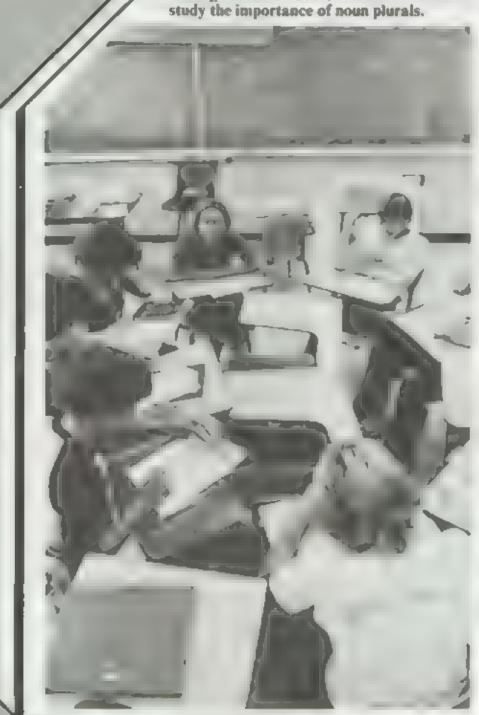

Being the president of TSEA, according to Miss Cox, "Is interesting, takes a lot of time, gives you an opportunity to know the administration and teachers better."

Every year in the spring, the association normal less a president elect I no president elect I note that title for one year and then assumes the position of president.

TSEA is an association of teachers which helps improve the district and assists in maintaining good teaching conditions. Jennifer Malouff, junior, commented, "Our ability to maintain the high standards of TSEA shows that McClintock teachers have class in whatever they strive for."

any high school students associated the name "freshman" with immaturity and childish behavior. On their first day of high school, a campus full of signs, painted messages and "insults" from the student body greeted freshmen. Seniors, on the other hand, enjoyed their final year at McClintock as the dominant class with privileges such as sitting on senior lawn. With more underclassmen enrolled in accelerated classes and involved with athletics, some people believed that the gap between seniors and freshmen maturity had narrowed.

"I think that the seniors are the more immature. They are the ones who are trying to prove

themselves by picking on the freshmen," commented Chuck Greenwood, sophomore. Christine Cling, sophomore, disagreed. Cling stated, "In general, seniors are more mature because they have been through more experiences and have been in different situations. Therefore, they have learned and matured through the years."

Some seniors felt that their class was more mature than the freshmen's, "Not all seniors are more mature. I just think that freshmen show no respect for upperclassmen," expresed one senior. "Freshmen don't have it rough at all. Seniors really go their own way and don't pay too much attention to them."

One senior felt that freshmer were extremely different from seniors, "Freshmen are much more paranoid, ignorant and afraid to act how they feel and not how they should," she cm phasized. One freshmen, though felt confused about the underclassmen's position in high school, "Sometimes it seems that freshmen really have no place id high school," stated Katrin Bush.

"I think it depends upon the in dividual. A lot of seniors didn] know where they were going a freshmen and still don't. But th same holds true for freshmen. all depends upon the individual, concluded Tony Mastrocola junior.

reshman English provides students time to review short story themes.

Inter-Club Council (ICC) propresidents to resolve their problems and to gain ideas for success. "Humor helped ease the tension among opposing clubs as we worked as a group to promote organization, togetherness, participation and friendship throughout the school," affirmed Larry Graham, ICC president.

Members learned new approaches towards everyday problems such as fund-raising projects, attendance, club unity, discipline,

and all other difficulties associated with the title of president. "I found that with insight from ICC, it was much easier to gain members attention and maintain order during the meeting," commented Patty Castro, Co-operative Education

Club (COE) president.

ICC also played a role in the school and community. Clubs united to transform the campus into a "Night in Shining Armor." Due to their efforts streamers, posters, balloons, and flowers blanketed McClintock for the day of the Homecoming game. Lunch time activities and a carnival during "Spring Week" sponsored by ICC helped to alleviate the monotony of the months before summer vacation. "I value the effort we made in promoting the Benefit Boogie which aided the Estrada family in rebuilding their burnt home," added Cindi Kotten, German Club president.

"Keeping the results of the elections a secret until they were announced was very difficult," declared Sarah Owens, sophomore representative to the Board of Supervisors. The honesty required of the board members to collect and tabulate student council election ballots, royalty nominations, and cheer, pom and MC tryout votes placed tremendous responsibility on each member.

The Board of Supervisors' duties began early in September with tabulation of MC tryouts and did not end until the voting booths were removed in late April after the student council elections. Honesty prevailed throughout the entire year. "Three years on the board proved very worthwhile," stated Beth Bemis, senior representative. "I have gained not only responsibility but also many new friendships.

#### Historian Sales Peak; Mid-August Confusion Greets 55 Staffers

1 lthough total sales of the 1982 Historian had surpassed the 1981 by the first quarter, turmoil became evident in Unit 1 room 10.

"Have you heard anything yet?" inquired forty anxious staffers impatiently waiting to receive materials which aided in production. Because of a printer's lack of communication, Rose Duarte, adviser, accepted other bids at the last minute. After two school weeks rapidly disappeared, Mrs. Duarte chose Newsfoto Publishing Company. Only a few weeks prior to first deadline, staffers acquired knowledge of new rules and regulations. The delay prompted the staff to work harder together.

"It's like having a full-time job, besides going to school," stated Myra Patton, co-editor. On the average Myra Patton and Lisa Faulkner, co-editor spend 30-40 hours a week working on yearbook outside of class. The Historian staff proved to be the largest and most experienced yet

Vickie Matz, honors co-editor, decides on a typestyle for her section.

## Typesetter Makes Work for Paper; Insights Budget Increases

By Cindy Eichorn

be a major adjustment for uidon's newspaper staff. The idio-visual department received a pesetting computer with a terinal located in the Guidon room. We changed from just a writing b to a writing and production b," explained Patricia Muller, lyiser.

The staff, composed mostly of niors, were constantly searching r noteworthy occurrences or peoe "Informing in a literary manr was the paper's goal," comented Mrs. Muller. "This was hieved through proper writing ills and journalism techniques," continued.

Working as a group without ult interference in both positive

and negative situations was an added benefit gained by the students. Biweekly deadlines tested these personal encounters as the staff demonstrated how self-discipline brought rewards

To pay publishing costs, Guidon raised money through advertisements, candy sales, and a spring dance. "Businesses called up with fundraising offers," acknowledged Mrs. Muller

On the average, Jamey Kurbat, editor, and Jodi Lutz, typesetter, spent ten hours weekly working on the Guidon outside of class Carmen Alexander was the Teen Gazette reporter and also spent extra time in writing articles.

Attaining literary knowledge proved to be a rewarding ex-

perience for Insights members. "Insights let the students mix with people who were interested in the same things as they were," commented Ann Theibert, adviser.

Many students submitted plays, poems, and essays. The Insights team then reviewed each piece to decide what was publishable for the literary magazine. After each member had read a submission, a point value was placed upon its excellence. The highest scores qualified as being print-worthy after much proofreading and editing by the Insights crew. "We had articles written by mass media class students as well as by English seminar kids," stressed Jenny Berman, member.

Demonstrating creativity and flexibility, the varsity line executes a stunt.

trees and Mac cheerlines exchange red and yellow carnations to comply with tradition.

C amp of Champs was the site the varsity, junior varsity and the pommies chose to attend during the summer. The camp's theme was "Better Than Ever" and the line tried to carry it throughout the whole year. At the first pep rally, the girls displayed signs and performed the "Better Than Ever" cheer. Besides practicing during the summer for camp and putting in many extra hours, the cheerleaders made cakes and several other treats for the players. "Being boosted by the cheerline and the crowd gave us a tremendous boost to keep playing at our very best," stated Ted Gould, varsity quarterback.

"We made it one of our goals to try very hard to carry out tradition," said Wendy Merkel, cocaptain. For instance, during the Homecoming pep rally there was a competitive cheer. This year's attraction, however, was a big number one decorated with lights

which were turned on.

With Mac on the move, the crowd cheers with Dawn Thomas.

## Vinning Seasons Make Frosh, JV, Cheerleaders' Jobs Easy

During a clash against Marcos, Roxanne Ivory encourages the Chargers.

s JV and freshmen football A spectators approached the stands, enthusiastic cheers could dimly be heard. As they neared the bleachers, C-H-A-R-G-E-R-S, Chargers, ... was the obvious chant, "It is so different from cheering in junior high. It's a good felling to look up in the stands while we're cheering and see the crowd clapping and cheering with us," said Michelle Corley.

With both freshman and junior varsity football teams having a winning season, arousing spirit was not difficult. Initiating new and clever ideas was the challenge to both lines. Teri Beck added, "We did have a good season, but the truth is, we really wish the guys would appreciate everything we did for them

At cheer camp at LaJolla, California, during the summer, the JV line received numerous awards for attendance and creativity.

## Iridays' Performances Require Iwenty Girls, Advisor to Work Steadily, Cohesively

Jo most people, the word 'pom' brought to mind pep rallies, halftime shows, and glamour. To the twenty girls on the pom line it meant 6:00 a.m. practices, uncountable posters, and a rigorous schedule

The girls had to adjust to that rigorous schedule when they made the line. The early summer practices helped the girls perfect their home routine before camp at La-Jolla, California. The line brought home forty-nine blue ribbons and four red ones. Among the many awards given out, the McClintock girls were the recipients of most of them, such as: The Most Involved Award and the Superior Trophy

As soon as the girls were rested from pom camp, band camp rolled along. Learning new flag techniques intrigued the girls. For a different start for the season, they performed a flag toss in which the drum majors marched through The girls spent many hours together before school started which resulted in long lasting friendships. These friendships, it seemed, made all the work worthwhile. "I feel like all of the girls are my friends. I can call any of them anytime just to talk," stated Debby Bouvier.

"Pom is a full time job for me! If I were paid for all the time I put into pom I'd be rich," commented Laura Baker. The girls had to learn several routines each week besides baking cookies and cakes. "I stayed up very late making goodie-boxes for the players and then had to get up early for practice! I got really tired, but it was worth the effort," stated Leona Tang

"The girls worked super hard all year and they deserve a lot of recognition," said Laurie Slemmer, pom sponsor. Sometimes the chaos resulted in conflicts, but the satisfaction far outweighed the stress and struggle of the season

keeping an accurate watch on the time

Experiencing the thrill of the first victory fascinates new chargettes.

## Intensive Familiarity of Procedures Required; MC's Knowledge Aids Numerous Matches

in ... Takedown ... Nearfall ... All these words and more became familiar terms for twenty-five girls chosen for MC's. Try-outs included scoring, learning wrestling rules, and refereeing before a panel of judges. Intensive studying and practicing helped insure that the girls would make the cuts.

After tryouts, the line settled down to choosing uniforms. As the girls voted on "preppie" outfits, total expenditures topped \$100. While many schools' matmaids were cutting back to just tee-shirts, MC's showed McClintocks class and increased the size of their wrestling trousseau. "It was expensive to buy all those clothes," stated Patty Castro, "but we wore them often enough to make the cost worthwhile.'

The club raised money through selling turkey-grams, stockings for Thanksgiving, and buttons supporting wrestling. These funds went towards buying flowers, poster paper, and an end-of-the season

"MC's takes up a lot of time but in the end it is worthwhile," stated Kim Brown, president. Backing the wrestlers was the girls' maximum responsibility as each member attended all the junior varsity and varsity dual meets. Also MC's attended a two-day Christmas tournament held at McClintock. Every night before a meet, the varsity line made posters encouraging the boys to win.

At the meets, the line was responsible for keeping the official score and for timing periods. "Most people don't realize that without matmaids, wrestling matches cannot be run," mentioned Kit Fisher, vice president.

A new adviser did not change MC's much because the group was quite self-sufficient. Larry Faust, also the freshman wrestling coach, accepted the responsibility. "Because I went to all the meets anyway, sponsoring MC'S was not much extra work for me," explained Coach Faust.

## Jwo Organizations Gain More Status with New Image

The Marineels began the year with many new changes which revived their popularity around campus. "We want the student body, not just the swim team, to recognize who we are and what we stand for," expressed Karen Shultz, vice-president.

Marineels supported the swimmers by sponsoring annual bake sales and candy sales. They also distributed publicity around the school.

The Marineels, however, were not the only club who showed their enthusiasm. Mac's track club (MCTC), participated in many events which supported the team "We had many new people with common interests in track which helped form a close bond between the members and those on track," concluded Michele Arredondo, president

## Office Experience, Class Credit, Wages Benefit COE Students

ow many high school students had the opportunity to receive ork experience, high school credit as a salary all at once? Twenty-our Cooperative Office Education embers took advantage of that rivilege. Patty Castro, president, aid, "The COE program provided good experience in the office eld."

Jobs were available to COE embers in businesses, throughout to valley. Members worked from to five each school day. Along

with a minimum salary, students also received two high-school credits.

COE held many fund-raising projects. They sponsored a family at Christmas and also, assisted at a children's hospital. They used most of their funds to support their annual Employee Banquet at the end of the school year.

Many of the members will keep their jobs after graduating from high school. Mrs. Edwards, adviser, recommends COE to anyone interested in the office world. "I can't believe how much I have learned throughout the year, in the COE program. I know that the on-the-job experience and training will really help me in the future. "I am getting a rich background at an early age," concluded Castro.

COE has many other benefits also, such as having their meetings during the class periods, and establishing new friendships with

co-workers.

## Students Receptive to Workshops, Adviser; Minor Adjustments Produce Major Results

" The most difficult obstacle I overcame was familiarizing myself with the different studies concerning each individual" said Sandra McLain, adviser. Minor adjustments facilitated the transition from Molly Olson, who recently retired, to Mrs. McLain. "I really felt more comfortable being with a new adviser," said Laura Thompson, "We both started at the same point."

Workshops, conferences, and classroom work helped HERO'S progression. One of the greatest

benefits obtained by students was insight into careers. Interests explored during the workshops ranged from modeling and fashion to ice carving, covering many facets of the job market.

Besides classroom activities and workshops, club members participated in fund-raising for service projects. Donations to several notorious charities, adopting a family, and creating Halloween decorations for children in nearby hospitals remained as outstanding projects.

he study of the Latin language and history is not only a way for Junior Classical League to benefit their own knowledge, but also to create their own government which is influenced by the ancient Roman government," offered Maurice Brill, adviser

Basically, JCL was an organization for students who have taken a full course of Latin. They supported their club by raising money through car washes, candy sales, initiation ceremonies, and Roman banquets. This money also went towards their goal: to travel to California and participate in a JCL convention. "Latin and JCL have helped prepare me for my premedical studies, and also are helpful to anyone in their future," concluded David Smithers, senior.

JCL was not exclusive to benefitting students' knowledge. According to Mrs. Glazier, adviser of the Science Club, "We have developed a club for a group of students who share a common interest, the study of all science." It was established in September and many students joined to expand their own interests. The Science Club planned trips of scientific interest to a variety of spots around the state about once a month.

## Ambitions Prove to be Crux of Mac's Art, Chess Club

Art, according to Webster's dictionary, is the "human ability to make things." Since people never stop creating, the interest in art lingers on.

The Art Club is one of the oldest at McClintock. According to Katie Johnson, "The continuing interest

keeps it going

David Grace, president; Marilyn Whitelaw, vice-president; Tony Arlotta, treasurer; Amy Florence, secretary; and Lauren Norman, historian, led the club.

Fundraisers included popcorn and Kelly Pop sales which financed field trips to art galleries in such places as Sedona and Scottsdale.

Members found pleasure and friendship, even though they didn't plan to be professional artists. "Art makes a good hobby, even if you're not interested in it as a career," stated David Grace.

Another long-lasting club was taken over by Sterling Boelter, graduate student. To the chess club, and hours of practice, strategy, and concentration paid off during chess tournaments.

Although membership was small, enthusiasm was high. Zealous students met on a weekly basis to discuss plays, and try out new strategies.

## Pursue Jommorrow's Potential Inspires 20 Eager Members

What is Key Club?" "What does Key Club do?" "How all Key Club benefit my high chool years?" Various questions rose as Key Club began ecruitment.

Young, lonely, and handicapped escribed the many people Key lub sought to help, by carrying at the theme "Pursue Tomorrow's otential."

"As a service club we try to help brious needy people. We take hancapped children to the zoo, elped sponsor a benefit dance for le Estrada family, and we had a kate-A-Thon for Muscular vstrophy," commented Lynda ills, president.

Compiled of 120 members, Key ub worked to interest and excite embers. Members attended the ternational Convention in New exico and the District Rallies in rizona and New Mexico in the Iter portion of the year.

sa Sherer questions the itinerary for obers attending the district convention.

Club members approve the contents of the Key Club-NHS Calendar.

At the first meeting, Meg Pollard introduces herself to the club.

## Members Possess Commendable Qualities; Many Charities Gain Needed Assistance

J houghtful, strong-willed, giving, ... numbered among the qualities of members of Interact according to Tracy Arnold, president. Members earned a feeling of satisfaction in helping others while still being involved with the school.

Many charities benefitted from the club's efforts. Rotary and Roteract joined with Interact to fill a 40-foot-long van with food and clothes for Agua Prieta, Mexico. Another drive aided in replenishing stolen items from St. Mary's Food Bank.

The holidays brought the spirit of giving. On Halloween, members trick-or-treated for disabled children. During the Christmas season, students rang bells for the Salvation Army and bagged fruit for a hospital.

Participation in activities lasted all year. Interact sponsored two successful blood drives and the annual Muscular Dystrophy Dance Marathon.

The club not only served the community, but also the school Saturday mornings at 6:30, members cleaned the stadium after the preceding night's game.

Rotary, the sponsoring club, held luncheons every Wednesday. Students met each week with the men to keep them updated on the various functions.

Hopeful applicants faced interviews held at the beginning and at the end of the year. "The reason we interviewed was to keep people from fading out towards the end of the year. I was pleased that many lasted," commented Tracy.

Interact gave me the chance to relate to and understand more about others less fortunate than I," concluded Greta Kruggel.

## Letter Persons Meet at 7 A.M. to Discuss Ski Trips, Picnics, Concessions, Dance

Where at 7 a.m. can you find Chargettes, varsity volleyball players, and varsity football players discussing ski trips, concession stands, and a picnic? This can happen only at a Letter Club meeting, where people participate in these various activities.

Selling concessions at dances and home football games, along with maintaining two pop machines, and a Sadie Hawkins dance in March, enable the club to support several other clubs and organizations. Upkeep on the varsity blazers, helping pom and cheer go to camp, and donating to United Way were just a few.

But making money was not all the club considered. After all the hard work and dedication, the group scheduled a ski trip to Sunrise. Using club funds to pay for the buses allowed all the letter persons to go. "It's always such a blast! You go up there and ski with all your friends, and even if you don't know how to ski, you can have fun by playing in the snow," said Pam Smith.

Hard-working officers included Toby Babina, Shelley Arredondo, Shauna Kiefer, David Davenport and Karl Kiefer, adviser, who pulled together during all events. "Coach Kiefer helped out a lot; he was there whenever we needed help," stated Toby Babina, president.

Initiation of all new members and a picnic concluded the year.

owing the beat of the music, Jeanne nitz learns a new routine.

# Varied Dances Important to Students; Chargers Delight in Pressure-Free Sports

"Modern dance gave students the chance to gain coordination, poise, and body control," stated Pam Harris, adviser. The dancers were not only taught Modern Dance, but were introduced to jazz, ballet, and even aerobics, which students practiced weekly.

For students, Modern Dance was not only a class credit but also a learning experience. "I really enjoy the students and teacher in the class, for they enable me to be more creative in my work," commented Kris Bulla.

The yearly concert allowed both beginning and advanced classes to

join together to perform their talent.

Another outlet for talent was intramurals. Supervised by Terry Barnett, intramurals provided an opportunity for students to participate in numerous sports.

"I think it's a lot of fun because anyone can get involved and play," asserted Janelle Mazen

The most popular sports enjoyed by students include weight-lifting and basketball. Other sports played were volleyball, racquetball, and golf. "Each program let the athlete improve his/her favorite sport," stated Barnett. Before presenting his speech at a competition, Murad Kirdar, freshman waits patiently for his audience's attention.

### Many Fresh Faces Lead to Fine Year for Forensics Team

season which began with much excitement ended on a sadder note when forensic team members bid farewell to Marcia Leighninger, adviser, at mid-term. The Forensics team, although, leveled off to a fine year with many new faces. The students sought help in improving their speaking styles.

Forensics joined numerous local tournaments and also participated in a California tournament which involved teams from various spots around the state.

As a member of Forensics, a student devoted many weeks in preparing materials. These included researching topics and selecting poetry and other forms of literature. What made the Forensic team members take on this responsibility? "It is a challenge to many of us, not only to test our techniques of speaking, but also to improve them the second time around," asserted Murad Kirdar, freshman.

With the support of fellow members, the team's speaking in front of a group of people became not a fear, but an opportunity.

# Autore Directs Play; in October Assembly

The Drama Club, open to anyone interested in theater, held many different projects. Members portrayed Charlie and Chargina Charger, the mascot couple, and performed in several plays. Greg Autore, senior, directed, choreographed, and produced one of the latter plays, Aladdin and his Wonderful Lamp.

The Drama Club also assisted in the Red Cross Disaster Drills in Tempe and Mesa, These drills resembled disaster situations in which members acted as accident victims.

The Thespian troup #1797 served as the nuclei for the Drama Club. The troupe consisted of honorary drama members who had attained a required number of theater points. Performers gained these points through active participation in theatrical productions.

Overall, members believed the year was quite successful and productive. "I enjoy being president of a club that I feel people are involved and enjoy themselves," concluded Dianna Hall, president.

The magic of the spotlight, the rise of the curtain on opening night, and the overall thrill of hearing a crowd applaud a spectacular performance comprised a few of the sensations experienced by Thespian and Drama Club members. Teamwork, precise timing and character insight also provided Thespians with additional theatrical experience.

Lunch provides performers time to exchange opimons for the upcoming spring production.

# 'Rent-a-band' Fund Raiser Pushes Band Nearer to Go

Efficiency was one of many goals for Charger Band. Striving to accomplish more in less time proved to be the major challenge. "Rent-a-band," a fundraising idea, brought them that much closer.

"It was when someone wanted to have the band do something and was willing to pay," stated Greg Stoll, director.

Hours of rehearsal and effort went towards competitions with other bands. According to Mr Stoll, the band business was very competitive, and they always tried to make the band look extra special. A new look for the percussion section gave them that little edge over other schools. Red and white tops and blue aussi hats made their debut at the Tempe High game. Along with new percussionist uniforms, the two drum majors, John Huerta and Meg Pollard, made their appearance in white outfits and aussis.

The "enforcer" was a new face in the Charger Band. Dave Corral acquired the nickname when he joined the ranks as student director from ASU. Also assisting was Chris Fernandez from California

Before practicing on the varsity field, the Charger Band stops to enter tain students with a version of "On Broadway."

### Huge Influx of Underclassmen Forces JV Bands Reorganization

"We've had a fulfilling year with 90% new faces in JV band," commented Greg Stoll, band director. The influx of new members posed the problem of reorganization. The 50 members, however, worked as a team filling up positions in the band.

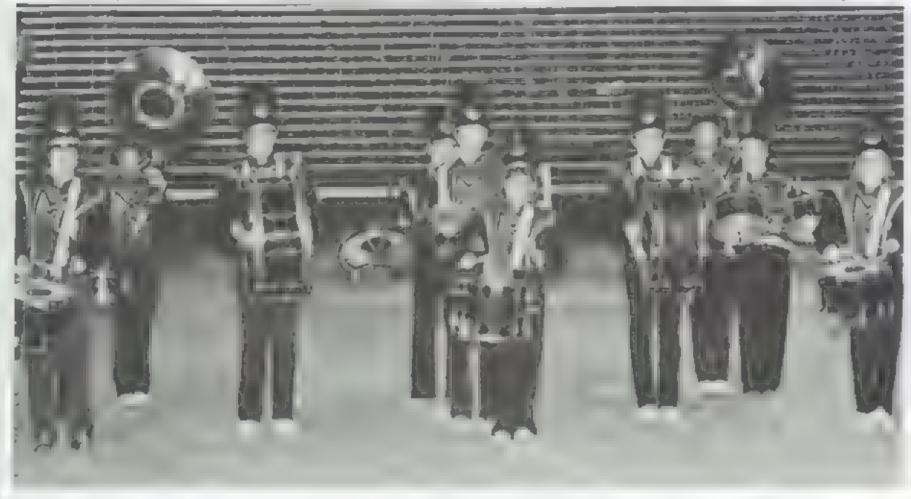

Many of the students auditioned for JV band to develop their skills and to prepare themselves for Charger Band. "I enjoy the class for we have a lot of freedom in the choice of music and in the lack of pressure ... my goal is to make Charger Band and move up to better music," expressed Bill Reiland, freshman

Part of the year was dedicated to working with the Chanticleers. Band members agreed it was a successful program and they felt it would prove to be beneficial if continued. "I accomplished a lot and learned to use my skills better," commented Joey Parks.

During the pre-game show, band members promote enthusiasm.

On their presentation at the football game against Mountain View, JV band offers their rendition of "On Broadway."

# Jop Performances, Enjoyment Jypify Concerts, Festivals

"We want to perform well and have fun doing it. We want to make it fun for us and the audience." This was the goal of Greg Stoll, the director of stageband and guitar.

A limited group of musicians performed in musical festivals and formal concerts. Concerts at elementary schools were intended to encourage children to play instruments.

Stage band included the most competent members who auditioned from Charger Band. "They're a fun group to work with because they learn fast and can play hard music," commented Mr. Stoll, who has worked at McClintock for four years

"In order to make this kind of band good, it has to have talented people with experience, because it is a different style," explained Mr Stoll, who also directed advanced and beginning guitar. His hopes included having his students play electric guitars. "The guitar is an instrument that can sound good by itself, and it's easy to learn," stated Mr. Stoll

Emphasizing the music's tone, Jay Atherton, senior, uses the "C" harmonic chord.

Deedee Atsumi reviews a sightreading study.

# Dennis Adds New Changes, Interests to String Orchestra

With a different director, the orchestra started out on the right foot. Warren Dennis began his first year of teaching a string orchestra. "His ideas and ambitions add new and exciting dimensions to the group," commented Laura Fry.

Frequently combined with other district orchestras and choirs, the orchestra entertained many listeners. These opportunities provided the musicians with performing experience. "A significant example of the potential of the members is that the majority is involved with notable area groups such as: the Scottsdale Youth Symphony, and the Phoenix Youth Symphony," observed Mr. Dennis, director.

Hours of rehearsal paid off as A Cappella performs their annual Christmas program. Mr. Dennis directed the concert

Former Students Gail Shuck and Cory Snyder join Laurie Kaufman in singing "Lord, We Give Thanks To Thee." Membership builds lasting friendships.

Greg Autore, Mike Trifari, Kathevn Sumners, and Jav Atherton perfect their style prior to the spring concert. Selections included "Didn't My Lord Deliver Daniel."

Rewarding Performances Extract Choraliers' Best Endeavors

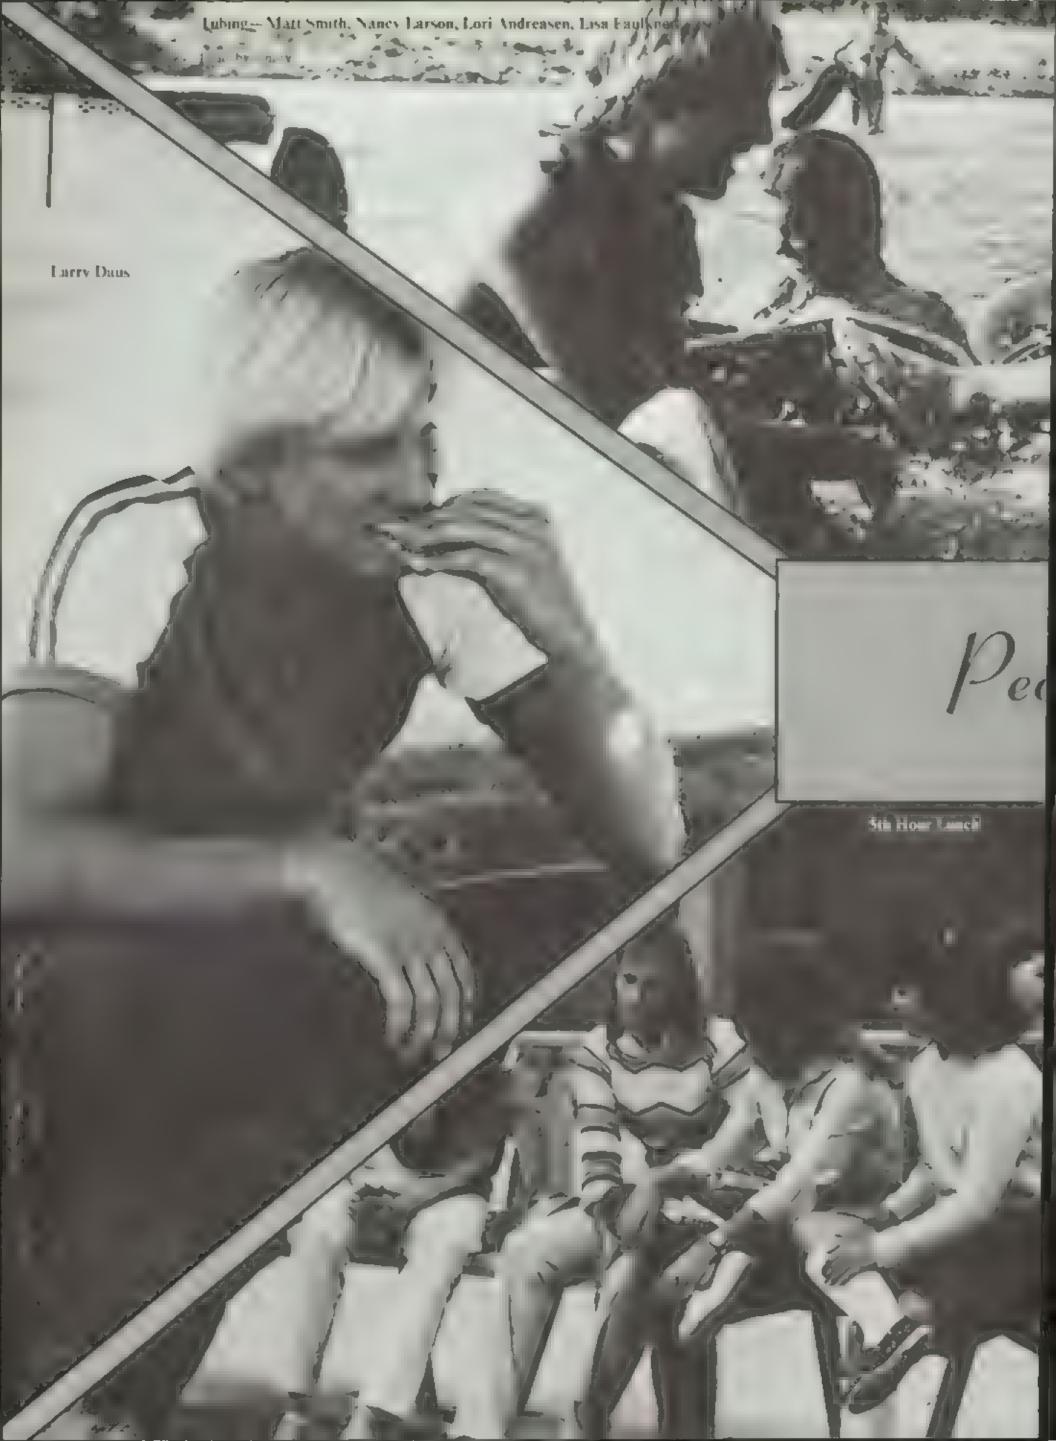

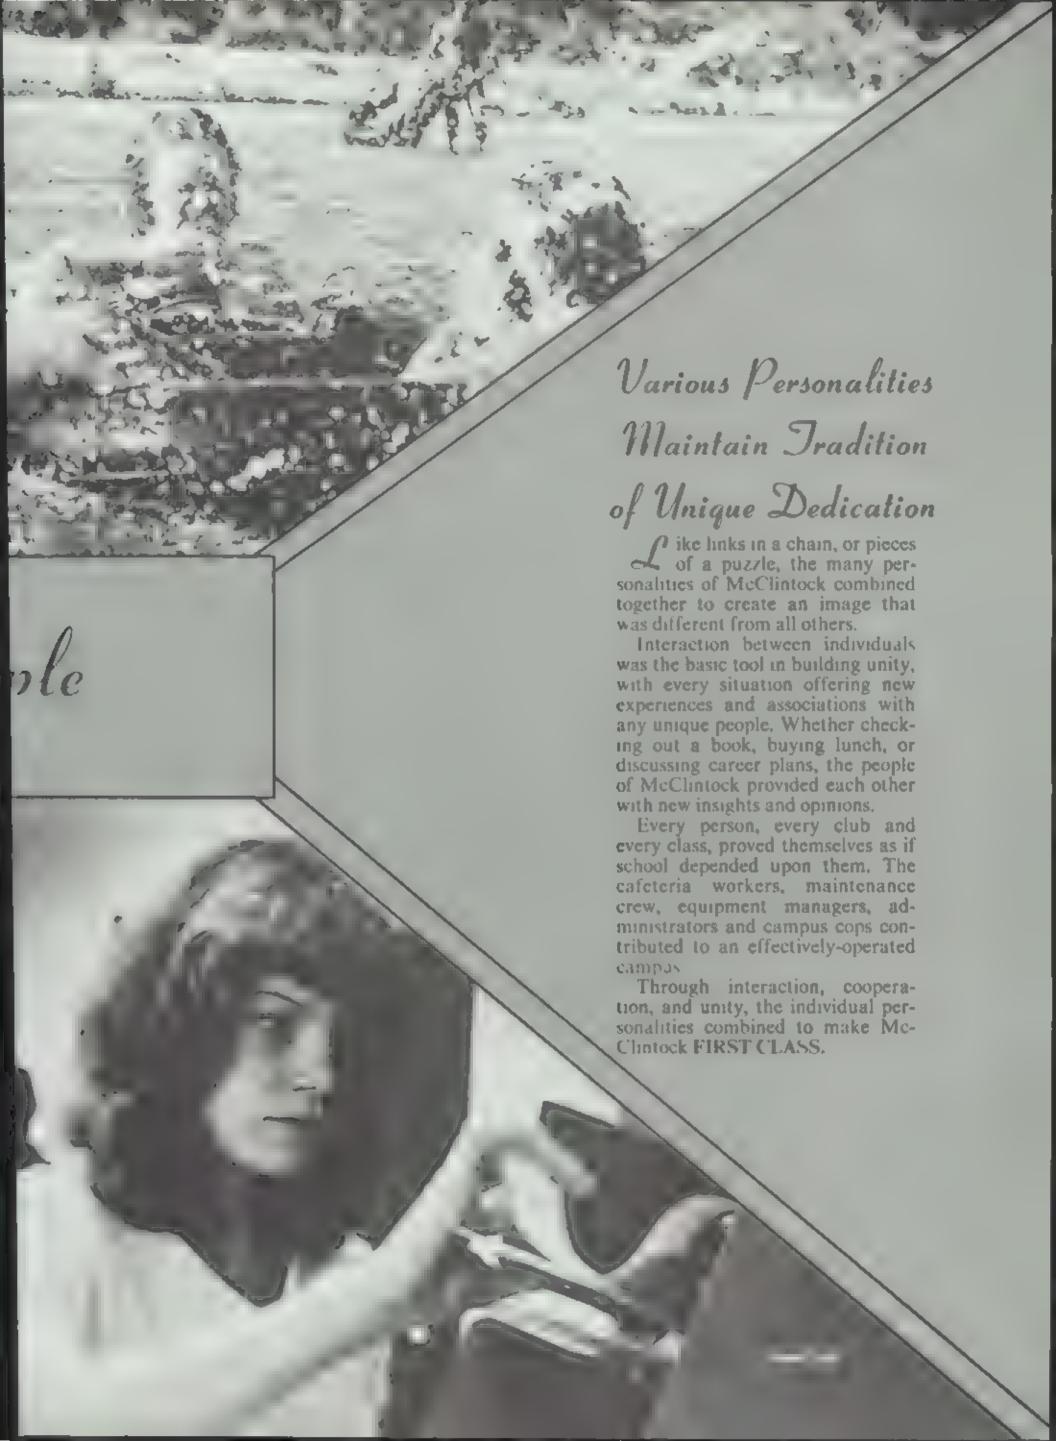

Members of the Mixed Choir anticipate a retard in a newly-acquired melody.

Spring, winter, and fall were times spent on those crucial practices and rewarding performances. Chorahers participated in music festivals at both Arizona State University and Flagstaff. Working with other schools, such as Mt. View, seemed time consuming, yet extremely rewarding.

"Many people attended the performances of the Choraliers who devoted time and hard work," according to Mr. Warren Dennis, director. He added, "I would like to teach them that performing is not the most important part of Choraliers; it's being exposed to music."

Freshmen comprised a large part of the music group. "The maturity of voices is not as good as in the past years, but by the end of the year I recognized a great deal of improvement," concluded Mr. Dennis

# School's Start Best Ever; Lyons Lauds Attitudinal Changes

hanges in attitude and more cooperation between administration and students prompted Mr. James Lyons, principal, to observe that this year's school opening was the best ever. For the six years he has been principal, he reported there were fewer scheduling changes and less problems at orientation. "Creating the best learning situation and environment for students possible," stated Mr. Lyons. "was an important part of the job." Working with people also constituted another enjoyable aspect of his job.

Aside from his duties as head administrator, Mr. Lyons went out during both lunch periods and met and talked with students. He also met with parents through the 10 on Wednesday program, which he felt was a tremendous help. Each Wednesday he welcomed parents and discussed curriculum and student activities. He then gave them a tour of the campus.

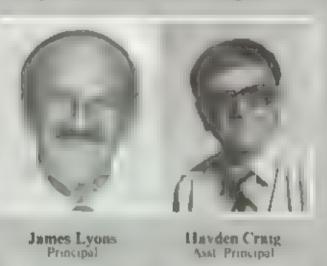

Mr. Lyons included parents and students in decision making with student representation not only at curriculum meetings, but also at parent advisory committees. He participated in the HIT, Hang In There program, the program designed to help motivate potential drop-out students. He represented McClintock at the Arizona Interscholastic Association, a governing board which was involved with and regulates the athletic programs of all Arizona high schools. Observations were made of classes and other academic activities by the North Central Evaluation team. Mr. Lyons felt that the administration and faculty responded very positively to the North Central Evaluators. "We welcome the opportunity for them to make suggestions to help make McClintock better than it already is," he offered

Diversified Careers Complement Reid's Enthusiasm in Education

Students work hard to prepare for college or the working world, but the knowledge and guidance provided by teachers complements the basics needed for reaching goals. On the other hand, what foundation lays behind the techniques of a teacher? Kenneth Reid describes his experiences outside McClintock's doors.

At the age of nine, Mr. Reid borrowed his father's saxophone and took music lessons. This started his 34-year musical career. He turned professional at 15 and quickly was hired to appear on the Jean Norman Show. Performing at children's shows and high school parties occupied his adolescent years. The need for quick, spending money prompted him to play in many local establishments.

During the 1950's, styles in popular music underwent rapid changes. In Los Angeles, Mr. Reid accompanied many of the members of the more famous "big bands" during the jazz era including Tommy Dorsey, Jimmy Dorsey, and Glen Miller.

Not long after, he traveled to Arizona and worked with Latin groups in Tucson. Returning to Phoenix, he taught Country Western tunes for 4 years. Finally in 1970, Mr. Reid came to teach American History and Arizona History classes at McClintock and has never left. "Mr. Reid has a technique that makes American History fun to learn. It is easy to relax and enjoy his comical situations and still understand an, otherwise, difficult subject," offered Steve Eastin, junior.

His instrumental range included flute, clarinet, saxophone, bassoon, drums, bass, and Latin percussion. Mr. Reid commented on his feelings toward a professional music career. "The conditions are poor and you receive cruel treatment from others in the same business." This does not keep him from performing

On a final note, Mr. Reid relished his early days of music and strongly encouraged the playing of an instrument. He added the improving talents as a hobby is a profitable endeavor. He is thanksful for the opportunity of developing his talent, but now appreciates musicians much more for, he concluded, "I know what they're going through."

Terry Barnett relishes the victory touchdown over Marcos.

# Jacobsons, Cambodians Gain Friendships; Experience Valuable

The McClintock campus heard news of a foreign exchange plan. Although the campus hosted foreign students before, something highly unusual took place last fall. Mrs. Karen Jacobson, health teacher, more than doubled the size of her family.

"As I was waiting for the flight from San Francisco to arrive, questions raced through my mind. Do we really want a Cambodian family of seven in our home? How will we communicate? Suddenly, stepping through the airline tunnel were seven timid, tired, and very thin Cambodians with tears in their eyes and smiles on their faces. The moment I saw them, I knew everything would work out," reflected Mrs. Jacobson, "Driving home with Mala at my side, was a different experience.

Even though I couldn't understand her spoken language, I could tell from the expression in her eyes that she was scared but happy."

Vanna, father of the Ket family, spoke to some American Government classes and told of his experiences. The father, who speaks Vietnamese, French, and English had been teaching elementary school when the communistic Polpot regime took over Cambodia and began killing anyone who was educated. As a result, the Kets fled to a forest for over a year. In 1979, when the Vietnamese conquered the Polpot regime, Vanna resorted to a Thai refugee camp. Students envisioned the family walking nine days in and out of brush and without personal belongings, in order to reach the Thai border. During the long journey, the Kets believed their mother, Mala, had been killed in one of the many battles against the communists. Much to their surprise. Mala was discovered in a refugee camp.

After they arrived in the United States, the Kets stayed with the Jacobsons. Mr. and Mrs. Jacobson found them jobs and located a house and helped them settle into their new lifestyle. Mrs. Jacobson summarized, "My family benefitted greatly from this experience. We learned to share ourselves, by giving time and our love. They, in return, taught us the joy of sharing and the realization of how important our American freedoms

really are."

During a health class. Mrs. Jacobson explains the delicate functions of the heart.

### World Youth Visit Association Elects Allred to Envoy Japan

Speaking fluent Japanese came as a definite advantage to Joe Allred, business teacher. Last summer Mr. Allred was chosen as one of sixteen delegates to the World Youth Visit Association of Arizona.

"The people," he reflected,

"impressed me the most. They are unified, contributed to the growth of the economy and are very productive." The culture wasn't entirely new to Mr. Allred; he had previously served a two year mission for his church.

In his yukata, Joseph Alfred kneels with his new Japanese family in Tsu City, Japan

According to Mr. Allred, Japanese schools, are much more stringent than their American counterparts. Students attend school year round, and wear uniforms to their formal classes. Each day, most high school classes last from 8:30 a.m. to 4.30 p.m. with an added 3 hours of homework. In order to get to school, most children have to take the subway or train. Much time is spent on extra studies in preparation for the difficult entrance exams in college.

Most items in Japan are more expensive than in America. For example, in order to obtain a driver's license, a person must be 18 and enroll in a 30-week school, costing up to \$1500. Dairy goods and beef are three times as much as they would be here.

Even though the cultural methods and customs differ, Mr. Allred hopes to return and possibly teach there. He recommended visiting Japan because, "If you ever get a chance, you'll learn a lot."

Through the years, Mc-Clintock has seen teachers come and go. Many teach for only a few semesters, while others have taught at Mc-Clintock since its doors open in 1964

McClintock commenced with a mere 37 teachers. Six of those educators were on the staff in 1982. Although they have been teaching in different areas, they all have something in common, a special attachment to McClintock.

"It takes dedication and good fellowship to have a stable faculty, and that is what we have." commented Mary Lou Duvivier

Mrs. Duvivier originally advised the publication of the Guidon, taught many of the various English courses, and is now the chairman of the English department.

Karl Kiefer, football coach, who led two teams to state championships, stated, "Mac has a strong faculty, supportive parents, and most importantly it has tradition. Since 1964, different traditions have come about, and pride for the serious has also increased. ? Coach Kiefer mentioned that McClintock tradition, like I park dress up days, and bontgres acherated spirit from its beginning in 1964

Since McClintock began, the teachers have seen many changes on campus. "The difference between the students of '64 and now is incredible. We wear different clothes and do different things," remarked Cindi Kotten, a sibling of a former McClintock

graduate.

Other returnees include Mary Ann Prust, home economics teacher; Barbara Shepard, counselor; Rose Duarte, English teacher and Historian adviser, and Vida Bernard, Librarian. Mrs. Bernard summarized her feelings when asked why she was still at McClintock, "Why do you like home?"

Nancy Larson and Dave Tarkett par incapate at a flower party. Budgeting time proved crucial imong school, homework, and activities.

### Commitment Restrains Football Jeam

Being on the football team has a lot of advantages. Sometimes, however, certain privileges must be given up by students. The Homecoming Flower Parties were one of those privileges. Coach Carl Kiefer stated, "I'm not against flower parties, but studying and football should come first; after that, they can do whatever they want, but they are probably too tired and don't have enough time."

Players had a hard time juggling studies, school activities, and recreation all at once. "I would have gone if I had the time, but usually I would have had a lot of things to do. Between football, and studying I didn't usually have time

for things like flower parties," commented Mike Williams.

Flower parties have been a tradition at schools for many years. People were very surprised about Coach Kiefer's decision, but it didn't affect many people. Even though most players didn't participate, the parties turned out rather successful. "A player has to prepare for the games and he has an obligation to his studies," concluded Coach Kiefer.

The class of '82 completed their annual float with or with out football players participating at the flower parties. The float followed the theme "A Night in Shining Armor."

# Cut-off Date Bewilders Seniors By Tracy Arnold

stake, many McClintock seniors had to get an early start on their college educations in order to avoid the May 1st cutoff of Social Security benefits.

Due to budget cuts, Social Security children benefits expired for 18-year-old, non-post secondary students. Thus students whose parents are deceased, disabled or retired were only able to beat the cut-off by enrolling in and attending a college full time before May 1st. Congress axing the \$2.3 billion Social Security student benefits affected 150,000 seniors nation-wide.

McClintock students found

I ith thousands of dollars at themselves trying to arrange their schedules in order to fit in the required 12 hours of college credits and the high school credits that they needed in order to graduate. "My main frustration was that MCC didn't offer the government classes that I needed for credit to graduate," explained Cindi Kotten, "so I had to carry a full load at both schools."

Many college administrators and other educators criticized the Social Security Administration for failing to notify the students of the impending cutoff. Late February would have been too late.

Social Security cut-offs affect Cindi I ten's and Meg Pollard's high sci planning.

# Hemorable Opportunity Awaits Eichorn

By Decilee Assum

s the year began, many seniors were filled with hopes and ambitions for the beginning of a college career. Cindy Eichorn, like some, was preparing for a spring graduation and further schooling, but took a step in life that was unique and a once-ina-lifetime experience.

Chosen by Rotary International, Eichorn ventured to Lower Hut, New Zealand last February. After hours of interviews and seminars, she was awarded the opportunity to visit another country, attend high school, and serve as a goodwill ambassador for Tempe -

Eichorn was given this honor by the Rotarians of Tempe East

District #550. Their program goals are to further international understanding, particularly among high school students.

Qualifications are difficult, hours are long, and tension is great. Her counselor's and principal's reports, class standings, school activities, parental employment and an interview were reviewed From 222 applicants only 22 were selected, Eichorn being

Before her departure, Eichorn commented, "I don't think it will be an easy year, but I feel I will learn a lot about people, myself included, and will mature greatly from the experience."

Preparation exhausts Cindy Eichorn.

# Newly-Elected Council Members Apprehensive of First Year

Rust Tingey, president; Lori Beckstead, secretary/treasurer; and Karen Scholtz, girl's representative. Tingey said, "We didn't know what to do at first but our advisers Mr. Hatten and Mr. Reid helped us out along with Jodi Stratman, vice-president; and Shawn Giffin, boy's representative." Beckstead added, "I knew that I wanted to get involved and to get things going for the juniors."

As the usual custom of the

najor project for the year, However, \$180 provided winter coats for the seven-member Cambodian family hosted by Karen Jacobson, health and anatomy/physiology teacher. "We have the extra money and I feel that it is for a good cause," explained Tingey. "Since it is the class's money, we presented the idea at a class meeting and everyone agreed."

"We would like to keep up the tradition of giving out gifts at

prom, where the tickets are free added. Tingey. To earn the money, a magazine sale profits \$1,900 and a candy sale brough in about \$1,000.

"Homecoming went just greated on senior lawn decoration was completed on time and I think looked terrific!" expresse Scholtz. "The juniors are real working together more, and or projects are truly class efforts declared Stratman and Shaw Giffin agreed.

Sanders Semifinalist at '81 World Show

hristine Sanders represented Arizona as the leading contestant in Trail at the 1981 World Quarterhorse Championships in Tulsa, Oklahoma in August. Suffering from a broken tibia that occurred in December, Sanders hoped to compete at "World" again. "I'll be out for about six weeks but hopefully it won't affect my qualifying," she stated.

"Your points over the year are compiled and the top two accumulators in the state in each class such as Western, Trail, Halter and English qualify for the World show," explained Sanders. In 1981, she won the most points for the age group, 14-18, in Trail and remained in the top-ten youth all-around for

her wins.

At "World," Sanders competed up to the semifinalist round and at

her disqualification felt somewhat cheated. "I'll not go as far as to say that the judges were corrupt, but in Trail, each judge had his own scoring system! The points got jumbled so the results were inaccurate. Sure, it's an honor to even compete in the show, but naturally, I would have liked to place as high as I possibly could have," expressed Sanders, "People from Arizona are contesting the system but there really isn't much they can do. What's done is done, but I hope for a clearer judging system next year, whether I compete or not."

Over the years, the Sanders family has accumulated four horses, "My first horse, Flagbar, and my newest one, Kidd Klondick were both Christmas gifts," recall-

ed Sanders.

## Hitting the Slopes, Juniors Forget Cost, "Get Away From It All"

co kiing, the mere sound of the word brought to mind fluffy powder runs, sunny mountain days and a chance to "get away from it all." Unfortunately it also conjured up thoughts of expensive equipment, transportation, and lift tickets. For most juniors, skiing was a favorite sport, when they could raise the funds. Many relied on part-time jobs, while some utilized birthday and Christmas gift money to purchase equipment.

A pair of skis, boots, bindings, and poles, the basic equipment, often totaled several hundred dollars. The extras, such as a down jacket, bib, gators, and goggles were luxuries hard to obtain. Bor-

Fnjoving the slopes, skiers take a break.

rowing a friend's clothes and equipment, however, was one of the ways that juniors cut the cost of skiing.

Transportation proved to be another obstacle. While most juntors held drivers license. few were allowed to borrow the family car. "With the price of gas so high," said Craig Garza, "It's just getting to the slopes that skyrockets your

expenses."

The cost of equipment and transportation, didn't seem to cut the enthusiasm for skiing "It's an excellent sport," commented Kim Frazee, "Sure it costs a lot, but when you're out on the slopes you don't really think about it. It's definitely worth it."

# Fifteen Students Evidence of Small World

here's so much that we share, that it's time we're aware it's a small world after all..." Most visitors to California's Disneyland have heard these words in the world famous "Small World" attraction. The words proved true for a special group of students

These students born in a foreign country later moved to the United States. McClintock's diverse enrollment included four students from Vietnam; three from Arabia; one from Japan; three from Canada; three from Korea; and one from Germany.

Finding a niche in a school as large as McClintock meant meeting strangers daily, and finding friends from over 1600 students. "At first I wasn't sure how I would be accepted," stated Noriko Yo of Japan, "but the people here were really nice, and it wasn't hard to find friends at all." "It helped a lot to get involved," commented Glen Sumner of Calgary, Canada. "Being in the hand gave me the opportunity to meet people the first day."

Moving to a new school from a different country brought trials and anxiety. It also provided students, however, with broader understanding and an increased awareness that people are people everywhere. The friendship and new experiences

made it all worthwhile

# Melancon Recalled as Energetic, Honest by Friends, Teachers

Rise Melancon

Spring vacation turned into tragedy for the Melancon family. While on a trip to London. Rise Melancon contracted a rare virus. She was hospitalized with convulsions and slipped into a diabetic coma; she passed away three days later.

Well known for her ability to tell jokes, Melancon, a graduate of Connolly Junior High School, possessed incredible energy and honesty. Her personality attracted many friends. As a teacher assistant to Bob Beatty, math teacher, he instantly noted that she was constantly in a good mood and was conscientious.

"Her work as an T.A. was excellent. If she was ill one day, she would come early the next to be sure the work was completed," recalled Mr. Beatty.

Like any other teenager, Melancon was interested in football games, racquetball, movies and dances. College, a possible career in accounting, and an apartment in Tennessee where she lived before coming to Arizona six years ago, were all a part of Melancon's future.

McClintock mourns the loss of Rise Melancon.

#### Marzke: Piano, Academics, Choir, Clubs

think of anything I've encountered so far that hasn't been interesting." Carolyn Marzke would have tried "just about anything." Musically inclined, Marzke has played the piano since age three and recently joined A Capella. The athlete in Marzke has drawn her to swimming and tennis, since age 12. A self-titled "incurable bookworm," Marzke boasted the number one ranking in the junior class with a grade-point average approximately of 4.6.

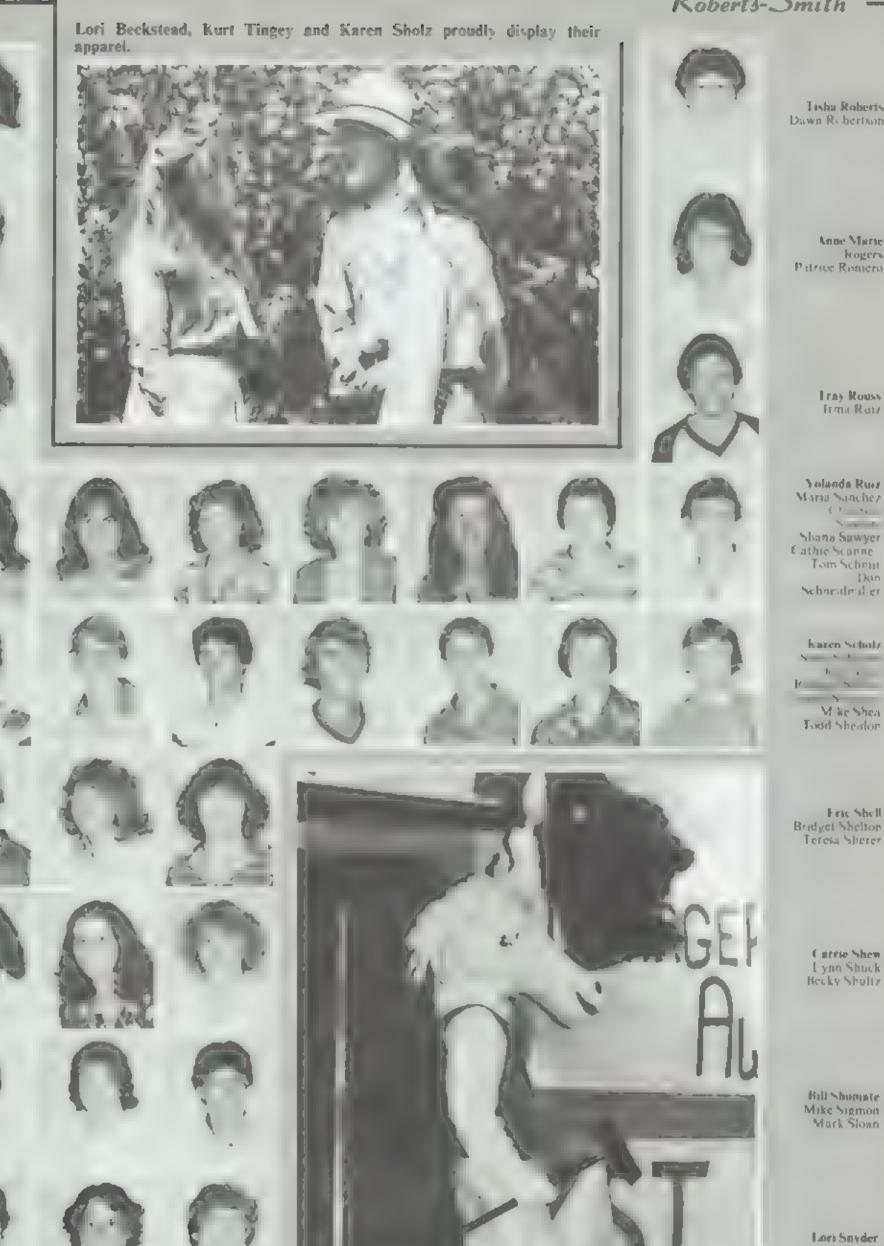

Marzke claimed to have "a laziness that keeps me from praticing as much as I should"; however, this hasn't stopped her from winning various piano competitions. In the junior level at the Phoenix Symphony Guild Concerto Competition, Marzke placed first, For two

years, she also received the piano award at the Northern Arizona University Music Camp. She admitted, "I hate performing because I get a dreadful case of butterflies, but after a successful performance, I love it!"

In January, Marzke received her preliminary Standard Achievement Test scores to discover that she had qualified as a National Merit Scholarship Semifinalist with an accumulative score of 213. Other academic achievements included the Freshman English Award and fifth place nationally in the National French Contest on the first-year level. In the future, Marzke hopes to pursue a medical career at either University of California at Berkeley, Stanford, Cornell or Harvard.

# Wilson Gains Position in Junior Olympics

Qualifying for the Junior Olympics was a progressive step for Angela Wilson, junior. She advanced from varsity volleyball to the Junior Olympics. Tryouts tested Wilson's skills and reactions in game situations. After meeting these qualifications, she was accepted.

The season went from December to June, with three-hour practices twice a week besides having tournaments. Two groups of 9-10 players compiled the Junior

Olympics.

'Excellent experience" is what Wilson felt she received from this program. The coaching staff, constructed of highly-ranked coaches, combined many years of experience. Wilson's tournaments gave her a chance to accomplish a wide range of traveling. "I want to go far in volleyball and this is the perfect chance.

Meanwhile, Wilson's goal was to qualify for the Junior Nationals which were held out-of-state. This program prepared promising While practicing for the Junior Olympics held in athletes for the Olympies

## Expanded Schedules Result of Experience, Increased Options

freshmen," the constant of the found themselves more at ease in high school surroundings. Perhaps it was the prospect of that long-awaited driver's license, or merely the fact that they had made more friends. At the start of the year, the Sophomore Class seemed ready for anything. Many joined clubs that held interests for them. Others participated in sports or intramurals. The general involvement in their school increased during the second year.

Led by Kenny Pilcher, president; Toby Crawford, vice president; Tracy Shearer, secretary-treasurer; Andy Saban, boys' representative to student council; and Patrice Cabianca, girls' representative to student council, the class sponsored numerous projects.

Being responsible for planning entertainment and competitions for pep rallies left many officers with a harried schedule. The class sponsored a dance during the earlier portion of the football season. Selling the traditional Christmas wishes and a Valentine's Day project earned additional funds. Much of this money the the class spent on various projects such as the Homecoming scene which involved a castle constructed of tissue flowers.

Towards the end of the year, a

major concern of the oil, is with a preparation of next year. Prom "We need a start pone; ahead of the so that when decords, and comes, we want be ready, and Patrice Cabianca.

A running total of spirit poi was kept throughout the year student council. The tradition theory of underclassmen ranking low in spirit was broken by Sophomore Class when they can out on top. "The participation the class has improved," council among students and administrating guaranteed the successful year

# Jalented Athlete Overcomes Back Injury

Ate in January of 1981, Heather Gilstrap, sophomore, bounced back from a serious back injury to win the Polar Bear Junior Tennis Tournament. Earlier that month an unexplained back injury occurred during a tennis match. "I wasn't able to return to the courts in top form again really, until June, It was terrible and I had to wear a back brace for a while," recalled Gilstrap.

Influenced by her parents, Gilstrap, at age nine, initiated her tennis career. "My mom and dad would go to the club to play

and eventually, I went with them," she remarked. Sisters Julie, 18; and Courtney, 11; also play tenns.

Besides the Polar Bear Tournament, Gilstrap has captured many other awards. When she was 11, Gilstrap triumphed in the Southwest Tournament in the 12-year-old division. Gilstrap's tourneys have carried her across the nation. A few summers ago she traveled in a national tourney from California to Ohio and Florida. There, she ranked 53rd among close to 200 girls.

Gilstrap returns with a strong forehand.

Additional Money Result Of House Chores

Sophomores learned to turn ordinary household chores into money-making jobs. Housecleaning, babysitting, lawn mowing, yard cleaning and pool maintenance were just a few jobs obtained by underclassmen.

Weekend dates, the latest fashions, a first car, records, and movie and concert tickets often exhausted the money earned. For example, Scott Morrison and James Raab worked long strenuous hours on weekends during the summer. The twosome advertised around their neighborhood and before they knew it numerous neighbors were seeking their services. These in-

cluded trimming hedges, lawn mowing and general repairs. The finances helped in meeting expensive car payments. Morrison and Raab acquired new skills as the result of encounters on the laboration. Lori Baniszewski remarked, "Babysitting taught me how to handle many different situations."

Work gave students more independence and freedom. With the added income, students were able to acquire some of their wants. Having a job also forced them to accept responsibilities. Sue Bader concluded, "Working for money inspires you to work!"

#### Determination Prompts Thirty-Pound Loss

fter a lifetime of fighting a weight problem, Stacey LaValle, sophomore, shed 30 pounds over the summer. "I was always on one diet or the other, but this time I simply said to myself, this is it; I stuck to it," explained LaValle.

At five foot two and a half inches, LaValle boasts a slim size three in place of size nine. "The weight loss really affected my attitude in a very positive way. Not that I was always depressed before, but now that I am at my ideal weight, I really feel better, mentally and physically. I'm not as self-conscious as I used to be and I can't say that I'm not proud of my achievement," expressed LaValle.

LaValle's strict menu consisted mainly of fruits and vegetables and did not include the use of any drugs. "I don't want to take any pills because I felt that it really wouldn't have been my willpower but the drug that helped me lose the weight. That way I probably wouldn't have had the same kind of self-satisfaction."

"Keep yourself busy and don't give up," urged LaValle as advice for other dieters. An avid athlete, LaValle biked and did numerous sit ups during her months of weight loss. Not following any special diet plan, LaValle simply "watched what I ate."

Long dedication is worthwhile for Stacey LaValle, who loses three sizes.

#### Extra Jalent Advances Parker to Varsity

Prior to the regular football season, Anthony Parker, sophomore, surprisingly found himself being moved to the varsity level. Parker replaced David Donahue after an injury. "I had never thought of being on varsity as a sophomore," stated Parker.

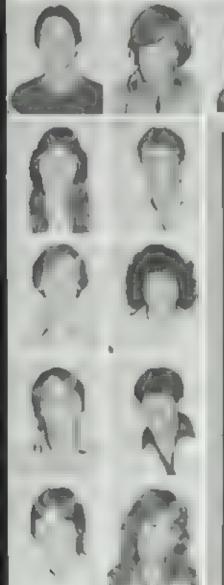

Coach Karl Kiefer decided to place Parker on the varsity roster in order to add depth. Keeping an eye on upcoming players is one of Coach Kiefer's coaching strategies. He becomes aware of younger athletes through Pop Warner, freshman football and P.E. classes. The exceptional ability of Parker was noticed by

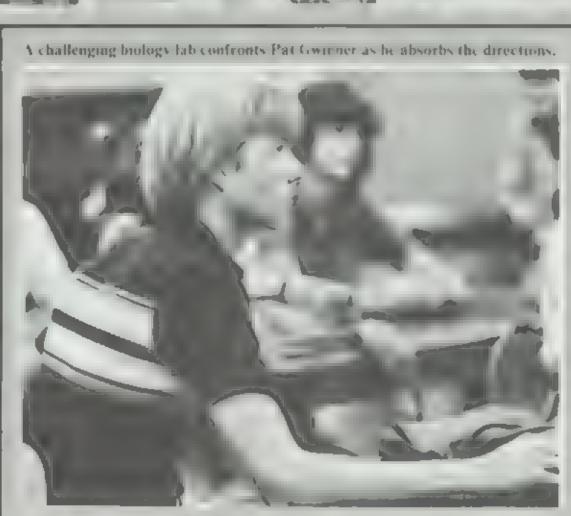

Kiefer and other varsity coaches.
"We wouldn't move a player up
if we were unsure of his performance," concluded Coach
Kiefer.

In the opening game of the season against Tempe, Parker proved his ability to perform. The sophomore running back took the ball to the Tempe 12-yard line for a 76-yard play. This set up the first touchdown of the year. Unsure of how his older teammates would react to his presence, Parker was, however, generally accepted as any other athlete.

Class Excels in Rullies, Class Competition

played an outstanding role while routing for the Chargers. During the past years, the class spirit had declined, but the class of '84 proved that they would change this. Students enjoyed cheering chants and yelling for class competition.

"I really enjoyed the assemblies; they let everyone give the Chargers support," commented Adana Reynolds.

During pep rallies, student council sponsored spirit prompting games and activities. Class competitions quickly grew in popularity. Aside from class cheers, sophomores participated in games such as chin-to-chin orange pass and cowboy, new

wave and sweat suit dress-up days, and contributed to class funds through the sale of spirit links.

"The sophomores have been great," stated Kenny Pilcher, class president. "There was always a high level of participation, which made pep railies successful."

Although most of the sophomores agreed that the pep rallies were exciting, the majority thought they should have lasted longer. Other students said that they should have been held more often. "I would have liked to have seen more pep rallies during the year," added Terry Beck

The sophomore class rated high in attendance at pep rallies.

## Reaction Poor to Raising of Driving Age

I hen Congress began considering a bill to move the driving age up to 18, sophomores reacted negatively. Students felt that the driving age was perfect and sixteen-year-olds were responsible enough to realize the seriousness of driving.

Most sophomores drove because of their need for transportation. "It gets kind of old asking your parents or older brother for a ride all the time," stated Lori Baniszewski.

Although walking or bicycling brought the students to school, getting rides with upperclassmen also solved the problem. "Carpooling with an upperclassman is uncomfortable at first, but it's

better than walking," concluded Monica Vernon

Sophomores also quickly admitted that driving includes certain drawbacks. Paying for gas and insurance posed problems as well as running numerous errands. "Now that I have my license, it seems as if I am always running errands for my mom," commented Brian Case.

Working through all these problems the new drivers had no reason to complain. The responsibilities and decisions pushed toward them were easily set aside when Friday night came around and dad handed them the keys to the car. Sophomores liked the independence driving gave them.

Tewer Classes Among Inticipated Items

Relief! An entire year of being classified as a freshman was behind the sophomore class. When questioned about the most appealing aspect of being a sophomore, the popular reply was that they weren't "only freshmen"

Other students shared an opposite view. Some sophomores missed the attention that came with being a freshman and added that the newness of school was lost. Many students used the excuse that they were "just freshmen" when they made a mistake or when they faced an unfamiliar situation.

What did sophomores look forward to in their junior and senior years? Answers varied from graduation, to varsity sports. Numerous students mentioned that they looked forward to being a licensed driver and to dating Events and organizations that sophomores were excluded from, but couldn't wait to become a part of, were Prom, Senior Ditch Day, Letterman's Club and National Honor Society.

Worn down from demanding schedules, sophomores looked towards a fewer number of required classes in their junior and senior years.

# Successful Dance, Motivation Id Money-Waking Ventures

o a newly-elected freshman student council member, money matters appeared bleak. With no money in the bank at the start of the year, a \$100 lean from Student Council initiated the

group's projects.

With this freshly-acquired money to work with, the freshman council quickly started preparations on a dance scheduled for November. The large turnout surprised Richard Groppenbacher, president, who said, "We made \$440 and we paid off Student Council for the loan; we still had \$340 for ourselves! The dance was very successful and ended our money problems."

"Although we tried to earn money all year, our first major project was the Homecoming decorations for our portion of senior lawn," explained Liesel Lunt, vice president. "We had very good participation at our flower parties but a lack of time and information hindered our project."

Despite the "somewhat unsuccessful" Homecoming project, cooperation and class spirit proved the key to a successful year. "I think that all of the freshmen are very enthusiastic. They are getting involved and participated in all the activities they can and that is what's important," commented Groppenbacher, "The Freshman

Class has so much spirit! It really makes it more fun and easier to cheer to a crowd that is so rowdy!' exclaimed Deanna Prokopchak cheer captain. "They make per rallies a blast to cheer at "

"Our next project is to sell smal megaphones with the Charge emblem on it. We hope this wil raise more enthusiasm with the class and involve everyone," ex plained Brant Brinlee, boys

representative.

# Early Start Offers Skater Exciting Outlet

enjoy roller skating because it is fun and exerting," asserted Stacy O'Donnell, freshman.

Stacy learned how to roller skate before she was six years old. She wanted to skate just for fun, but in fourth grade she started taking lessons and became serious about her favorite sport.

After perfecting her skating skills, O'Donnell started competing. "I competed in solos and with varied partners in different classes for six months," commented O'Donnell. "I could always find competition at Skate World."

Stacy had the chance to turn pro-

fessional but wasn't that interested, she decided to stay in intermediate to better her skills. She worked hard, and always found time to make friends, "A lot of friends I have, I met by skating and competing," stated O'Donnell.

O'Donnell owns her own skates and skates at different rinks throughout the valley, but likes Roller World the best. She has to take time out of her schedule to care for her skates. Oiling wheels, and polishing the boots help their appearance and they run smoother.

Next time you see somebody skating by, it just might be Stacy O'Donnell

#### Daily Habit Becomes Addicting to Students

"I hat happened today?" Among the least watched was a tie "Did you see it last Tuesday?" "I stayed home from school yesterday just so I could get caught up on what was going on." These were just a few comments that exemplified those of a typical soap opera addict. When surveyed, almost 4 of all freshmen thought that soaps were addicting, although they themselves weren't addicted to them. One freshman girl commented, "Once you start watching them, you can't stop! You have to know what's going on all the that school started. I kind of miss time."

Of all the soap operas, General Hospital took the highest ranking ingfield was voted as "the best among freshmen with The Young thing about soap operas." and the Restless close behind

between One Life to Live and A Search for Tomorrow. One freshman remarked, "I like General Hospital best because it is the most realistic. The things that happen in it seem like they could happen in true life. The rest of them are too fake to believe."

Both males and females enjoyed watching soaps although the majority of the regular watchers were girls. One freshman boy stated, "I started watching them because my sister is a soap addict. But now

# Knoll Chosen Only Freshman on Varsity

Hours of practice, endurance, and dedication proved worthwhile to Jeff Knoll, as he garnered a starting position on the varsity basketball team.

Selected as the only freshman, Knoll attributed his success to "Summer league play, constant drilling, and good coaching since playing at McKemy Junior High."

Basketball was a year-long activity, as Knoll participated in summer leagues, playing an average of season, he practiced for over two hours after school and on Saturday

Working with older teammates didn't place any extra pressure on Knoll. "They treated me like one of

them, not 'the b by' or anything," he remarked, "I never felt out of place; in fact, I really got along well with the older guys, once I got to know them."

Although he excelled in basketball, Knoll cited football as his favorite sport. He played on Mc-Clintock's freshman team as quarterback. Baseball, where Knoll pitched and played shortstop, was also included in his interests.

With three years until graduatwo games per week. During the tion, the 5'11" guard was already looking toward the future. He cited Indiana and North Carolina as possible college choices, as well as Pennsylvania State and Notre

Freshmen Share Scared, Unsure Feelings

iam Colby and Kathy Charles d their lunch bour studying.

7 reshmen shared a scared, unsure feeling their first day. McClintock shocked many freshmen who expected a different atmosphere. Some felt they would never live through that unbearable first day. Bob Martin explained, "It was nothing like the rumors we heard in Junior High." Most of the class felt that the semors behave immaturely. Some had different views of the seniors: "I thought that it was going to be worse than it actually was," replied Tina Clyne. Heidi Walker commented, "The way that they thought freshmen behaved is the way they acted." "Seniors think they can do anything they want to because they are seniors," said Jenniser Yeargain. "I loved the first day so much that I didn't care what the seniors did," concluded Cindy Rockwell.

But as the school year progressed, freshmen felt pride for their school. "McClintock is a great school and I'm proud to be a student here," remarked Johna Davis. As they began to become familiar with the traditions of McClintock,

they felt they belonged.

Each day brought a new challenge for the freshmen. They got ready for the big exams at the end of each semester; this new experience seemed trying to them. Most underclassmen had to work hard to receive good grades. Some felt that it was rewarding and that it set high school apart from junior high. Trisha Ronsley concluded, "I liked the challenges I met in each class and it was a good feeling to know you earned an 'A' through effort and hard work."

All in all, freshmen enjoyed their first year at McClintock.

# 300 Awards Highlight Walker's Career

ming season with a big splash; literally! She began swimming at the age of nine. With more than five years behind her, she achieved a successful year with the McClintock High School girls' swim team. Although only a freshman, Walker lettered.

Also an active member of the Tempe Swim Devils (TSD), and the Amateur Athletic Union (AAU), Walker finds swimming fun and very rewarding. "It keeps me in good shape, and I love it when I win a competition, but the best part is practicing and seeing myself improve," she added. "Practices required a lot of time, determination, and a great amount of patience." Not only has Walker ex-

deidi Walker began the swim-celled in swimming, but also has done very well in many other sports such as softball and track. Throughout the sports seasons, she was able to maintain her grade point average and continue to make the honor roll. Walker has received over three hundred awards and ribbons in her many competitions.

> "Swimming has mostly helped me to accomplish the goals I have set for myself," she expressed. Although graduation is three years away, she hopes to continue with her swimming at the college level, hopefully on scholarship. Who knows, Walker may be a future professional athlete. But for now, she is content to "keep on stroking" at McClintock

Baritone Kid," alias Steve klin, relaxes after performing.

Baritone Kid Becomes Local Radio Star

hoever thought that someone could become a local star by calling a radio station and playing a baritone? Well, that's exactly what Steve Franklin did when Jonathon Brandmeier, KZZP radio station's morning show host, requested people with a loud instrument to call in to wake his early audience.

Franklin called KZZP and just started playing his baritone. After a few more calls, he was labeled the "Baritone Kid," a name Brandmeier created for him. Each time he called, he played "The Baritone Kid's Theme."

Franklin appeared with Johnny at places such as the Playboy Club, Legend City, Fiesta Mall, State Fair, Chuckles, and also on the P.M. Magazine segment which featured Brandmeier.

"I was really nervous and uncomfortable when I first performed; playing in front of 10,000 people at Fiesta Mail felt really weird." When Franklin called the station in the morning, he'd say, "This is the Baritone Kid," and then would be put on hold until he was needed

"I was a nobody until Johnny came to KZZP, I'm glad he gives people the opportunity to be themselves," commented Franklin.

"My parents came to every show and took pictures of me. I have a scrapbook from all of the shows. They think it's really neat and have always supported me," concluded 1-ranklin.

# Traditions Deemed Important by Freshmen

By Gerry G bbons

came to school the first day expecting a decorated campus," stated Heidi Walker. "It wasn't that I liked 'frosh go home' signs, but it was the traditional welcome from the seniors." The administration tightened security and allowed seniors to decorate only with posters. "We decorated according to the rules, but someone tore down the signs before school the next day," commented Sheldon Jo, senior.

Another tradition was broken, as Unit One, nicknamed 'Frosh Zoo' was integrated with the other units. "It would have been nice to have a

hall for each class," stated Pam McEowen.

While two of the traditions faded, many others remained. "I'm still afraid to go on Senior Lawn," said one freshman, "it gives respect to the seniors."

Respect for the school prompted Student Council to advocate the tradition of not stepping on the MC during dances. Richard Gropppenbacher, president, concluded, "It's a tradition that we felt was important enough to enforce."

Most freshmen agreed that traditions added that "something special" that was unique to McClintock.

Krissy Cummings and Joe Pere avoid stepping on the MC dance.

# Fond Memories of Purcell Linger On

s the last day of junior high A came to an end, most graduates began to feel the excitement of high school. Then as September rolled around, they were ready for their new title as freshmen. Timothy Purcell, one of the new incoming freshmen, met

with a tragic death.

Three weeks after he had graduated from Connolly Jr. High, Purcell accidentally shot himself with a .22-caliber rifle. His unexpected death was a total shock to his family. "Tim was an 'extra special' young man and was loved by so many, many people," stated Sharon Chavez, Purcell's mother.

Participation and dedication are words that best describe Purcell He was involved in many school activities including wrestling, track, and Pop Warner football. He also coached children's baseball for three years.

The unexpected tragedy of Timothy John Purcell left a permanent mark on the lives of his family and friends, but the fond memories of him linger in all who knew him. What people thought of him was best expressed by his fellow students who voted Tim "Best Personality" in his 1980-81 Connolly yearbook

Families of the staff

When we were appointed editors for the 1982 yearbook,
we were determined to show that
each person at McClintock added to
the unique class she possesses Duri
ing the summer we began to plan
wory page of the book while attending a workshop at NAU for min
days. When workshop was ever we
thought we were ready he start
working on the yearbook.

With the changing of companies and an increase in the cost of production, getting started was delayed two weeks. With all that goes into a yearbook, two weeks seemed like a lifetime. Adjustments at times were hard to make, but in the end they preved to be invaluable.

We have tried to show just how special McClintock and her people are Undoubtedly some mistakes will appear in this book, we are human. If we missed your picture or spelled your manne wrong, we are sorry.

We would like to thank the staff for all the work they did. We may not have said it often enough, but we appreciate everything they did

for w. We cannot thank the photographers enough for their work, as without them, we would have poor foverage. We may have griped about burned negatives and lost pictures, but they also produced awmerous quality pictures.

Most of all, we want to thank on Mrs. D'. No words posid special took for her. Shot taught and the importance of petting along and working with people of all types to everflow when there seemed to be no hope. We want to congratulate her on her 20th book. Mrs. D'I truly is an example of the class are the faculty and administration non-sess.

Finally, we would like an maninual families, friends and follow Chargers, whose support kept me would have no susson to produce this book. Each Charger, young and old is a good reason that we wanted to give of surrelves to make this book become a first class reality.

Lisa and Myra

Mark,
It's been great in
Anatomy this year.
Good luck in College
and with your future.
Have a great summer
and take me waterskiing some time
( K Mike

Markus,

It's Been alof of fun in Anatomy this year. Good Luck At AS.U. It will be rough, Have a Great Summer. I

WANT to Go WAter Sking too. O.K. John

Through determination and concern for others, McClintock maintained her tradition of excellence.

#### Alma Mater

In sun filled mountain grandeur Stands proud McClintock High For banner boldly waving in contact with the sky.

And to you we are indebted For principles held dear We'll always follow our traditions Thru the coming years.

Our Sacred Alma Mater
Will guide us straight and clear
Her truth and hope inspiring
Dispelling any fear.

Red and Blue we pledge allegiance Through youth will pass us by We'll always harbor rev'rent memories of McClintock High.

Mark,

its been great
